Acting Director, FBI (164-2111)

MURJAK

This case has been reviewed at the Bureau and the following observations are being made in an effort to assist your office in your investigative endeavors.

The unsub, as Dan Cooper, at 2 p.m., PST, 11/24/71, purchased a one-way coach ticket at the Portland National Airport, Portland, Oregon, for travel from Portland to Seattle, Washington, on Northwest Orient Airlines Flight number 305, which was a Boeing 727 aircraft. Unsub paid for this flight with a twenty dollar bill and had no luggage. He occupied seat number 18E on the aircraft and prior to the time the aircraft taxied on the runway, he purchased a bourbon and 7-up with a twenty dollar bill from Stewardess [redacted]

The aircraft left Portland at 2:53 p.m., PST, however, after it taxied toward the runway for takeoff, unsub turned and handed Stewardess [redacted] an envelope containing a note written in black felt-tip pen and which was on plain white unlined paper and written in neat, legible handwriting. This note informed Stewardess [redacted] that he had a bomb and instructed her to sit next to him.

Unsub then dictated to her his demands at the conclusion of which he remarked, "No fuss." Stewardess [redacted] showed Stewardess [redacted] the demand notes and then went to the cockpit where she displayed them to the captain of the aircraft. The unsub retrieved these notes prior to the time the aircraft landed at Seattle, Washington. She thereafter remained in the cockpit where she prepared thirteen pages of notes concerning the hijacking and in which she described unsub as in his fifties. She later said he appeared to be of Latin descent. It will be noted that one

Re: NORJAK

of the aircraft passengers, [redacted], believed unsub was a Mexican-American. She had a short encounter with the unsub prior to her deplaning at Seattle, at which time she said unsub did not appear to know exactly where he wanted to go after he left Seattle, but spoke of Mexico City, Phoenix, and San Francisco. Stewardess [redacted] then acted as a communications media between the unsub and the captain of the aircraft until about five minutes after the aircraft departed the Seattle-Tacoma National Airport (Sea-Tac) when she was instructed to go to the cockpit by the unsub.

b6
b7C
b7D

The aircraft landed at Sea-Tac at 5:46 p.m., PST, at which time \$200,000 in twenty dollar bills, weighing 19 pounds, two back chutes, and two chest chutes were made available to him. The passengers then were allowed to deplane as were Stewardess [redacted] and another stewardess. This is normally a thirty-six minute flight.

b6
b7C

Shortly prior to the aircraft taking off from Sea-Tac at 7:36 p.m., PST, the unsub informed Stewardess [redacted] that they were going to Mexico City or someplace in Mexico and that the aircraft could stop anywhere in Mexico to refuel, but nowhere in the United States. When unsub was informed that the fuel would not permit the aircraft going to Mexico, unsub compromised and said he would prefer a refueling landing in Reno, Nevada. The last communication had with the unsub was by interphone at 8:05 p.m., PST, and it was felt that the unsub deplaned from the aircraft at 8:12 p.m. The aircraft landed at Reno, Nevada, at 11:05 p.m., PST. An extensive ground search of the area where it was believed the unsub exited the aircraft has proved negative.

When the aircraft landed at Reno, Nevada, a chest pack chute and a back-type chute were found on the plane. The missing chest back chute is a training pack "dummied up" to look like a good one. The missing back pack chute, sometimes referred to as an emergency chute, is non-steerable and anyone utilizing this type chute would have no chance of slowing down or picking his spot on which to land.

Also located in seat 18E of the aircraft at Reno, Nevada, was a black clip-on tie which contained a tie clasp described as yellow gold in color with a white pearl circular stone in the center. The label in the tie bore the

Letter to SACs, Seattle, Portland
Re: NORJAK

name "Towncraft" and bore store #3 Penneys. The label in this tie showed it to be a "Snapper" patent type tie. Investigation at Las Vegas indicated that this type sold for about a dollar and a half, that it was about a year to a year and a half old, and it was a favorite item for individuals such as waiters, busboys, and bartenders. Stewardess [redacted] has said that this tie was probably the unsub's and other witnesses have indicated that he wore a similar type tie.

b6
b7C

Located in the ashtray utilized by the unsub were eight cigarettebutts, seven of which have been identified by the FBI Laboratory as Raleigh filter tip cigarettes, and the eighth cigarette is probably the same. These cigarettes are sold in a "soft pack."

During the period Stewardess [redacted] was with the unsub and in her conversations with him she related what appeared to be keen observations concerning him, and which are as follows:

b6
b7C

1) He impressed her as being an executive because of his dress, special mannerisms, and consideration that he exhibited for her while on the aircraft.

2) In one of the conversations she had with him, she remarked that the parachutes were coming from McChord Air Force Base at which time he remarked that it was only about twenty minutes from McChord to the Seattle-Tacoma airport and which was apparently an accurate estimate.

3) While the aircraft was in a holding pattern and prior to its landing at Sea-Tac, the unsub looked out of the window and remarked, "We are over Tacoma now," although no mention of this had been made over the interphone of the aircraft.

4) He displayed an extensive and technical knowledge of this aircraft and seemed particularly well informed as to the refueling procedures and flying in general. He apparently was aware of where the oxygen bottles were and Stewardess [redacted] felt this information was normally known only by the crew personnel. The only function of the aircraft that he did not appear to be fully aware of was the procedures involved in the opening of the rear door and the extending of the stairway. He likewise appeared to be completely familiar with the parachutes that had been furnished to him.

b6
b7C

Letter to SACs, Seattle, Portland
Re: NORJAK

5) She said that the unsub was a chain smoker using Raleigh filter tip cigarettes. She observed him using a book of matches, the cover of which was blue and bore the name "Sky Chef."

6) Stewardess [] asked him why he had chosen a Northwest airplane to hijack to which he replied that he had a grudge but not against Northwest Airlines, but that Northwest happened to be at the right place at the right time.

b6
b7C

7) He used the expression "No fuss" on one occasion to Stewardess [] and "No funny stuff" on one occasion to Stewardess [].

b6
b7C

You should place strong emphasis on the fact that the unsub could be possibly a former employee of one of the West Coast aircraft or related industries, particularly Boeing aircraft. These industries have been hard pressed economically, causing a number of lay-offs among professional personnel as well as nonprofessional personnel and from a review of the material available at the Bureau, it is entirely conceivable that the unsub falls in this category. In view of this, the following avenues of investigation should be investigated by both the Seattle and Portland Offices:

1) Contact professional placement agencies, counselors, as well as employment contractors hiring temporary professional employees.

2) Contact unemployment agencies.

3) Identify and contact professional societies or organizations associated with the aircraft industry, being alert for anyone that possibly terminated membership or activity after 11/24/71.

4) The age bracket of the unknown subject could probably make him a Veteran of World War II, or the Korean conflict and in this regard, you should contact Veteran groups and the American Legion.

5) Seattle should submit to the FBI Laboratory the black clip-on tie and clasp found on the aircraft at Reno, Nevada, and request the FBI Laboratory to examine this material for soil and dust particles in an effort to possibly pinpoint the area of the country from which the unsub came from.

Letter to SACs, Seattle, Portland
Re: NORJAK

Also request the FBI Lab to examine this material for any markings or numbers that could further pinpoint the location of the store or city where it may have been sold.

This matter must receive close supervisory attention to assure meeting with success in solving this important investigative matter.

In order that this case be given more publicity,
the following leads are being set forth for Bureau
consideration and approval:

1. Mats should be made of the artist's conception of Unsub so that small publications with limited funds can feature articles concerning this matter and include with the story a picture of Unsub without incurring the additional expense of having new mats made (Note: An editor of the Veterans' of Foreign Wars publication for the State of Oregon has requested such a mat to print a picture of Unsub in his next issue).
2. If the artist's conception of Unsub is changed as suggested in referenced airtel, mats of the new picture should also be made.

RE: ARTIST'S CONCEPTION

Enclosed is a copy of photo KK5-1 in the Facial Lines Section of the Facial Identification Catalogue, and a copy of the artist's composite of UNSUB.

The following information is being submitted for Bureau review, and the enclosed leads are being set forth on an UACB basis:

On 12/2/71, a key witness, [REDACTED], insisted that the artist's conception was not a good likeness of the hijacker. She requested permission to examine the Facial Identification Catalogue and immediately picked out photograph KK5-1 in the Facial Lines Section stating, "that is him, except for the ears and hair." She explained that the person depicted in that particular photograph resembled the man; however, the ears of the hijacker did not protrude as far from the head and she felt that the hair line should be somewhat lower than that on the man depicted on photo KK5-1. She was very adamant in her insistence that the artist's conception shown to her was not a good likeness of the hijacker.

b6
b7c

A comparison of the artist's composite of UNSUB and photo KK5-1 revealed the primary difference between the two photos is UNSUB's composite appears to be a man much younger than the man depicted in photo KK5-1. The man in KK5-1 appears to be in his mid-40s while the composite shows the man in his late 20s or early 30s. 164-41-1121

In addition, the following witnesses indicated their dissatisfaction with the artist's sketch:

Witness [redacted] advised on 11/29/71, that the artist's composite of UNSUB depicted a man too young. Witness [redacted], advised on 11/29/71, the man depicted in artist's composite appears younger than UNSUB actually is. Stewardess [redacted] on 11/25/71, advised the man depicted in artist's composite is "too young."

b6
b7c

To date 475 suspects have been developed based on appearance, as well as other features. Many of the suspects were developed because of their resemblance to the artist's composite of UNSUB. A great number of these suspects have turned out to be in their 20s or early 30s, with light or fair complexion. According to witnesses, UNSUB's age is in the mid-40s and his complexion is olive or Latin in appearance. The artist's composite clearly looks like a man in his late 20s or early 30s and his complexion is difficult to determine from the black and white sketch.

Many agent hours are necessary to eliminate a suspect once developed. Redoing the artist's composite to better approximate the age and complexion of UNSUB should save many fruitless hours of agent investigation time.

From a review of Seattle report of SA CHARLES E. FARRELL dated 2/16/72, it is apparent that the only witnesses to see UNSUB for any length of time, at a close distance, were the three Northwest Airlines stewardesses. Therefore, their opinions should be given more consideration and any artist's conception of UNSUB should reflect more of their views than those of the other witnesses.

In view of the above the following lead is being set forth on an UACB basis:

A Bureau artist will recontact the three Northwest Airlines stewardesses and amend the current composite to better reflect his age and complexion. The sketch should be done in color showing full face, full face with dark glasses, side profile and a sketch showing the hijackers height and build in a standing position. All sketches should be in color to indicate UNSUB's swarthy complexion.

SE 164-81

The FBI Laboratory will provide information to the Bureau artist as to color of hair based upon a single hair sample submitted previously by the Las Vegas Division. It is noted that this hair was found on the head rest towel on the back of the seat reportedly occupied by UNSUB. It is further noted that this hair is being held by the Las Vegas Division as evidence. If the exact color of the hair was not determined in the initial Laboratory examination, the Las Vegas Division should be directed to forward it to the Laboratory for a color examination.

The Seattle Division will, upon receipt of copies of the amended sketch, supervise its distribution.

BUFILE 164-2111

On 8/17/72, [redacted], residing at [redacted], Lilburn, Georgia, furnished the following information.

b6
b7C

During the first week of November 1971, he was on an elk hunting trip in the northeastern portion of the state of Oregon. During this hunt he ran across a log shelter cabin and a cache of survival gear located in a remote place in this area. He is aware of the significance of this cache but furnished this information after hearing about captioned case. He advised that a short time after the hijacking he was transferred by his company from Portland, Oregon, to Atlanta, Georgia, and only recently received his furniture and personal effects. Since some of the data contained herein was with his personal effects he was unable to furnish this information prior to this time.

He produced a United States Department of Agriculture Forest Service map of the Joseph Ranger District, Malheur National Forest, dated in 1965. He stated that this map is available through the headquarters of the Forest Service in Portland, Oregon. He stated that the area that he is relating to is located within sections 1, 12, or 13 of Range 49 East in Township 1 North as set out on the above described map.

He states that he was off hunting by himself on this one particular occasion, when he stumbled into an area of heavy brush, he discovered a log shelter constructed entirely of logs five to six inches in diameter. The building being approximately four feet long by five feet wide and four feet high, the opening to the shelter was covered by logs propped in place and staked in position in the ground. At the time he was there there was approximately 12 to 18 inches of snow on the ground and this amount of snow had been in the area for four to six weeks prior

to this time. He noticed no fresh tracks near the shelter or cache at the time.

He was unable to look into the shelter to see what was contained therein and he did not remove any of the logs to examine it. He did notice a duffel bag hanging from a tree near by. This duffel bag had the name [redacted] or the last name could be [redacted] with Air Force number [redacted] imprinted on the duffel bag. The bag appeared to be old and contained numerous tears and wear holes. He examined the contents of the duffel bag and discovered that it contained rifle bullets, long-handled man's undershorts, shoe grease, candles, a jacket, vitamin pills, and some hippie-type smoking pipes, which appeared to be handmade. He noticed no food, no cash, or shoes in the bag. He noted that several of these items still had price tags on them reflecting that they were purchased either at Al Joe's or Andy and Ben both of which are Army surplus stores located in Portland, Oregon. He did not recall any dates of purchase.

b6
b7C

He also noted that there was a left-handed bow, as used by archers, hanging from a tree nearby. He removed this bow and took it with him, the bow bears the name Back Archery Company, Grayling, Michigan, registration number [redacted].

b6
b7C

He stated that the area of the cache is located in what is known as Bell's Canyon, near the boundary between eastern Oregon and Idaho. It is located generally in a gully between Windy Ridge and the next ridge located to the southwest. He states that the nearest community is in Imnaha, Oregon, located on the Imnaha River. To get to the area you take the Hot Point Road out of Imnaha and follow it to the end of the pavement, at this point you follow the wide trail that goes east on Windy Ridge and finally comes to a dead end. The road ends at a small draw and the area of the cache is located about 200 or so yards from the end of the road.

He stated that this general area has the appearance of being used during the summer months by packtrain trips coming from various dude ranches in the area and located nearby in a camping area which might be an overnight stopping point on these packtrain trips. He stated that from this camping area the site of the cache is perhaps 100 to 150 yards away up the side of a hill in heavy brush. The cache could not be seen from the camping area but the area could probably be pointed out by one of the rangers from the nearby ranger station at Hot Point.

[redacted] stated that with him on this trip was an individual named [redacted] who goes by the name [redacted], who is a builder in Portland, Oregon, but who resides in Aurora, Oregon, having home telephone number [redacted]. [redacted] thinks that probably [redacted] could point out the area where the party camped during this overnight hunt and might possibly be able to assist in locating the area of the cache. Other members of the hunting party were a young relative of [redacted] last name unrecalled, who is possibly a student at one of the community colleges in the Portland, Oregon, area. The third member of the trip is [redacted] who is employed as [redacted] in the Portland area. [redacted] states that no one was with him when he found the cache and the others would know of his find based only on the information he furnished them.

b6
b7C

Due to the fact that the Hell's Canyon area is located a considerable distance from the possible flight path of the aircraft in captioned case, flying from Seattle to Reno, the significance of this information is not known to the Atlanta office, accordingly, no leads are being set out in the Portland area at this time. Leads are being designated for the Detroit office to determine if the box found by [redacted] is registered.

b6
b7C

Will contact Bow Archery Company to determine if left handed bow number [redacted] has been registered by its owner with that company. If information is found will furnish the same to office of origin for appropriate additional investigation.

ReSEairtel to Bureau dated 8/22/72, requesting mats of the artist's conception prepared in captioned matter for use in obtaining more widespread publicity.

In accordance with the request of the Seattle Office 8/7/72, a color artist's conception was prepared and forwarded to the Seattle Office. To date the Bureau has received no evaluation of this color sketch. Seattle's request for mats will not be further considered until the Bureau receives an evaluation by the witnesses of the color sketch.

For the information of the Seattle Office, commercial engravers charge \$10 per 50 minutes plus an initial charge of \$8 for a 4" x 5" plate. These mats will only reproduce in black and white. Many publishers both large and small presently use the offset printing process which does not require a mat.

The Seattle Office should promptly coordinate review of the Bureau's color sketch for the purpose of evaluation. If it is deemed advisable that the mats be prepared, resubmit your recommendation.

she stated that sketch B appeared to be a likeness of an individual who was older and a hoodlum-type, which she did not consider the Unsub to be. She stated that he was more refined in appearance than sketch B indicates. He did not appear to be as tough and rugged as sketch B indicates. Mrs. [] continued, stating that the nose on sketch B is too rugged and heavy, and she would consider his nose to appear like something "in between" the nose drawn on the early artist's conception and sketch A. She pointed out that during her contact with the Unsub, he for the most part was seated on her side so that she saw only his profile. She never observed him from straight ahead, and most of the time he was whispering in her hear, and therefore, she was not in a good position to observe his facial features in great detail. She admitted that because of the time lapse, she is getting somewhat foggy in recalling his exact appearance and has looked at the artist's conception as often as she feels she is influenced somewhat by this. After observing the new sketch B, she stated that she likes the original artist's conception better as being a good resemblance to the Unsub. She felt that artist's conception B definitely was not a good similarity to the Unsub. She felt that artist's conception B was not "him" and his appearance was lost completely in the sketch without the sunglasses. In particular, she noted that the hairline on sketch B was incorrect, and that she preferred the hairline on the original artist's conception. She stated on the original artist's conception it would be identical

D.B. Cooper case

164-41

Sir,

In the early hubbub over the D.B. Cooper case, I hesitated to contact your office, (though the composite photo of Mr. Cooper seemed familiar) and I yet have no reason to believe my letter would be helpful. Still, I will advance a couple comments.

b6
b7C

(I grew up at [redacted]) my first impressions were, (1.) That such a jump as occurred would be impossible to make successfully, (2.) That the many access roads to the Bonneville Power line, might have been used in combination with an automatic or manually operated Beacon light. (Commercial Airline travel crosses Lockwood Canyon roughly parallel to the power line in its flight headed South. A mean average point would place a given Airlines roughly overhead at the Eastern slope of Lockwood Hill, although they sometimes track directly over the Power line at that point.)

(3.) An individual in that area could easily elude detection, even in daylight with searches about. He could, in fact make it all the way to Clatskanie to the west, could boat to Eddy rock via the East Fork of the Lewis River, reach a parked car on the highway leave from any of innumerable power line roads or even boat the Lewis and cross the Columbia at St. Helens Oregon. Etc

(4.) The possibility of a "Smoke jumper" making such a jump, successfully seems more logical than for a sports parachutist to do so.

(5) I believe this man cooper made it down safely, somehow, lucking out to a degree

(6) A mystery is something to be solved. I simply can't accept an unsolved crime as unsolvable.

(7.) I don't believe in Robin Hoods either. This man ~~was~~, and is, a criminal, careless of other's lives. The daring jump was impressive; nothing much else about him is impressive.

(8) Since the start of this the town named Hockinson has stuck in my mind, in relation to a parachute jump. (I cannot for the life of me remember where this town even is, yet it was a town involved in local sports.)

(4) There is just a faint possibility that this man cooper is a local citizen whom I have known casually. The picture was so striking as a familiar face, but then I suppose these composites look familiar to everybody.

If my familiarity with the [redacted]
[redacted] [redacted] would be of
any assistance - from here - feel free to let
me know. Yours Truly

Dear Sir:

On November 24, 1971, a man parachuted into the below described area with \$200,000 in \$20 bills. If, while camping or hunting, you should discover any evidence concerning this skyjacking please contact the nearest FBI Office.

AREA INVOLVED:

Bound on the west by US 5, bound on the south by the Columbia River, bound on the north by the Kalama River, and bound on the east by the Skamania - Clark County line.

WHAT TO LOOK FOR:

- 1) The remains of a man, possibly dead for one year.
- 2) The remnants of a parachute, harness or parachute shroud lines.
- 3) 10,000 \$20 bills wrapped in a parachute canopy, all serial numbers are known and can be identified.
- 4) Deteriorated raincoat or overcoat.
- 5) Small briefcase or attache case.

REWARD:

\$25,000.00 total or 15% of any lesser portion of the ransom money that is returned has been offered by Northwest Orient Airlines.

If any information concerning this matter is discovered, it should be reported to the FBI Office at Seattle, Washington, area code 206, telephone MA 2-0460 collect, or to the nearest FBI Office, which can be found by checking the front of your telephone directory.

when he received an honorable discharge. While in service he was a vehicle operator and was assigned Serial Number AF 19633624. He attained rank of Airman 2nd Class. From September, 1962, until employment with TWA in April, 1966, he was a Bar Manager for Norwood Inn, Sepulveda, California.

HANSEN was initially employed as a Steward for TWA. In February, 1969, he was promoted to an Instructor and was employed at TWA's Training Center, Kansas City.

In July, 1970, HANSEN was transferred to JFK Airport, New York, where he served as Group Supervisor, In-Flight Service, on 747's. On 8/15/70, he was transferred to San Francisco where he served in same capacity. On 11/1/71, he was again transferred back to JFK. On 4/3/72, he was promoted to his present position at O'Hare Field. He is married and resides at 1620 Lillian Street, Arlington Heights, Illinois.

[] stated there is no photograph of HANSEN in the file; however, he would attempt to obtain one from HANSEN's supervisor located at O'Hare Field.

b6
b7C

[] stated HANSEN is in a management position and therefore possesses a pass which enables him to fly on any TWA flight on a space available basis. In addition, because of the nature of HANSEN's work, it would be extremely difficult to pinpoint where he was on a particular day.

Dear Sir;

Re: D. B. Cooper Skyjack.

I hesitate to be critical of your agents or agents of other offices. Because I have encountered so much foot dragging and lack of attention in various matters I shall do so now.

The local office of the FBI was contacted for me by a guard at [redacted] that Friday the 20th October. They were informed I had pertinent information regarding the above. [redacted] was told they could not be free until the 24th (Tues). I followed this up with a letter to that office and also to Northwest Airlines both should have been received Tuesday morn. the 24th.

CORRESPONDENCE

There is a time factor involved and I explained that quick action was necessary. As yet I have received no further word. Of course today is the 25th and they may show up yet.

DB Cooper 42516

The person who I believe used the name C.B. Cooper for the skyjack is one I have been working on to find his contacts for drugs. I shall explain this further in a moment.

This individual is a pilot, a parachuter and has \$100,000.00 stashed. He also has the intelligence, ability and criminal attitude to attempt this type of play.

Now the reason I came by this information was due to the fact he is involved very heavily in heroin. Struck on my own as a private citizen with [redacted] I started 5 months ago to do something about the drug problem. I saw I didn't think enough was being done so I had to put my 2¢ in. [redacted] that were constantly exposed to this filth was reason enough and also you can ~~throw~~ in the fact that I couldn't find a home here that it wasn't in our way or the other reaching.

During my crash program to learn all I could about drugs and other sources (starting from scratch) I was suspected of [redacted]

I am not crying about that since this was the proper thing to do. I did find the B.N.D.O. agents a little over zealous in their statement of facts in fact very much so, but I guess they just feel they are doing their job. I can prove my position and innocence at the proper time and this is not my purpose here.

Just because I [redacted] wasn't going to stop me from the program I set for myself some time ago. This basically was to find the sources and through legal means stop them. Petty pushers and small time dealers were all around us and as fast as they were picked up two would pop up behind them. I knew that just snatching would stop nothing but would unnecessarily endanger [redacted] and me. So if I was going to really do some good it would have to be much deeper. I drew on the fact I had lived in an area for several years where drugs were plentiful and the people trusted me. Because of this and the large number of people I knew I arrived at the jail with top credentials.

b6
b7C

b6
b7C

I will have the inside track to large quantities
throughout the West Coast, Canada and Mexico,
But guess what. Each direction I turn some
one tries to goof it up. Just who is paying who?
I know the vast sums of money have reached
deep into the enforcement agency's but this
is really far out. Is every one on the take?

I also know now that unless I can convince
a few people otherwise there will be a
contract on me when I go out. Mostly
because of a stupid use of information in the
County Vice Office here. There must be a
few straight intelligent people around here
that one can work with.

I also know where phoney money is being
printed ect. ect.

As you know none of this information is of
much value unless it is properly developed
at the right time. Some of this will go down
the drain unless some one somewhere starts
cutting out the fat.

Hope you can be of help.

Sincerely,

[Redacted]

PORTLAND, OREGON.

Dear Sir:

On September 15, 1972, [redacted] First National Bank of Oregon, Coos Bay Branch, Coos Bay, Oregon, exhibited to Special Agent LeRoy R. Elliott of our office, a \$20.00 Federal Reserve Note, which on close analysis was found to be segments of four different \$20.00 notes scotch taped together on the back side. The purpose in this would appear to be to change the serial number as each segment contains only one-half of the original serial number.

The deception is easily noted on examination, because the two serial numbers appearing on the face of the bill, one on the lower left, the other in the upper right corner, are not identical.

RE: UNSUB; TELEPHONE NUMBERS CALLED FROM LA CENTER AREA
PAY PHONE BOOTHS, NOVEMBER 24, 1971

The following background information is being provided receiving offices in order to facilitate their investigation:

On November 24, 1971, UNSUB, aka DAN COOPER, hijacked a Northwest Orient Airlines Plane and parachuted into an area east of Woodland, Washington. On the assumption that UNSUB may have made a long-distance phone call from a pay telephone booth, all the pay telephone booths in the Woodland, Washington area have been checked for long-distance calls made on November 24, 1971, and November 25, 1971.

The receiving offices are requested to obtain the subscribers' names to those telephones in their areas and forward the names to the Seattle Division. Seattle will compare these names against those contained in the Norjak indices. Later a request will be made to obtain driver's license photographs of some of the subscribers.

[REDACTED], Oregon Journal, telephonically inquired on 12/22/72 whether the FBI was investigating the passage of \$20 bills which allegedly originated with the D. B. COOPER hijacking, at a Valu-Mart store in Portland, Oregon. [REDACTED] stated that this was a rumor [REDACTED] [REDACTED] had overheard from an unknown source and his call was merely for the purpose of confirming the rumor. He had no other information and after checking with the Oregon Journal staff, no additional information was available concerning this rumor.

DATE: 12/27/72

FROM : SA [REDACTED]

SUBJECT: NORJAK

On this date, [REDACTED],
[REDACTED], Oregon, telephonically contacted this office and
furnished the following information:

[REDACTED], who has given considerable thought to the
D. B. COOPER case, stated that he had put himself "in the shoes"
of D. B. COOPER and from this point figured that if he had
committed the NORJAK he would have planned to leave the country
and for this reason, would have previously obtained a U. S.
passport as much as one year prior to committing NORJAK.
[REDACTED] noted that every passport has a photograph affixed
thereto, as well as copy of same in the Passport Division of the
U. S. State Department.

[REDACTED] figured that possibly COOPER could be identi-
fied through the above-mentioned passport photographs.

[REDACTED] is interested in receiving any reward should
his line of thought bear fruit with regard to solving NORJAK.

It is suggested that Case Agent HIMMELSBACH pursue
the above-mentioned line of investigation toward solving NORJAK.

On 12/26/72, [REDACTED] Valu-Mart, 10510 S.E. 82nd, telephone [REDACTED] was contacted and she advised that there was absolutely no truth to the rumor that monies received by Valu-Mart stores were \$20 bills originating with the D.B. She did state that approximately two weeks ago she had been informed that one \$20 bill had been received which was bogus or counterfeit and she stated that possibly this incident might have created the rumor.

On 12/26/72, [REDACTED] Valu-Mart store, 700 S.E. 122nd, telephone [REDACTED] was contacted and she advised that she had no information regarding any possible receipt of \$20 bills originating with the D.B. She did confirm that a counterfeit \$20 bill had been received by the Clackamas County store approximately ten days prior to this inquiry and that this matter had been turned over to the Secret Service.

Since it was determined that [REDACTED] and auditing department were unable to confirm the alleged rumor, it is recommended that no further investigation be conducted by Portland Office in this matter. of inquiry reference ASAC Memorandum dated 12/22/72.

Two sentenced for fake story on Dan Cooper

SEATTLE (AP) — Two Bremerton-area men were sentenced to prison terms ranging to 12 years Friday on convictions of selling a fake "Dan Cooper" interview to a Los Angeles journalist.

U.S. District Court Judge Walter T. McGovern sentenced William "Jack" Lewis, 33, of Seabeck, to three-year terms on each of four fraud convictions. The terms will run concurrently.

Donald S. Murphy, 50, of Silverdale, was sentenced to two-year terms on each of three counts. His terms also will be served concurrently.

The pair was convicted last month on fraud charges stemming from their sale to a former Newsweek contributing editor, Karl Fleming of Los Angeles, of a fake interview with the man who hijacked a Northwest Airlines jetliner over the Northwest on Thanksgiving Eve, 1971, then parachuted from the plane with a ransom. The man, who gave his name as Dan Cooper, never was found.

Lewis and Murphy were released on their personal recognizance, provided they surrender in 10 days to begin their sentences.

The intent of this change to the artist's composite is to more clearly show UNSUB's age and swarthy complexion.

A release of an interim composite (one that had not been fully evaluated by NORJAK eyewitnesses) in the December FBI Law Enforcement Bulletin makes it imperative that this final version not be released to the news media at this time.

It was further ascertained that HAGAN has paid \$200 per month child support payments [redacted] and in 1972, a bench warrant was issued for HAGAN's arrest for delinquency in making support payments since 1968. This warrant was dismissed when HAGAN appeared and satisfied Superior Court in Los Angeles regarding the delinquency in mid 1972.

Records of the California Department of Motor Vehicles, Division of Driver's Licenses, reveals driver's license number B0821308 was issued to HARRY INDLAND HAGAN, born 9/5/29, residence 13423 Excelsior Drive, Norwalk, California, effective 2/16/73.

This record indicates other address of "Route 2, Box 171A, Silverton, effective 3/5/71".

A review of U.S. Postal Guide reveals there is no post office of Silverton in California; however, indicates there is a post office at Silverton, Oregon in Marian County.

Records of the Glendale, California Police Department reveal HAGAN was arrested in 1960 for battery and sentenced to 180 days, suspended. He was fined \$250 and placed on two years probation. Index cards retained by the Glendale Police Department reveal he came to their attention in 1962, 1965, 1967 and 1968, with no arrests indicated. He was the complainant four times in 1968 regarding auto theft, two burglaries and one petty theft. He furnished a different address on each occasion.

Discreet inquiry in the vicinity of 3400 San Fernando Road, Los Angeles, reveals HAGAN claimed to be a successful salesman for Open Road Campers in the Seattle, Washington area prior to setting up business in the spring of 1971 at 3400 San Fernando Road.

HAGAN is described as follows:

Sex	Male
Race	White

LA 164-497

Birth Data	9/5/29 Brenen ("perhaps Bremerton, Washington"), or Oklahoma (Both places of birth shown in Glendale Police Department records)
Height	6' to 6'2"
Weight	180 to 200 pounds
Hair	Dark brown
Eyes	Hazel
Occupation	Car Salesman San Fernando Valley, California area - 1960 - 1970; Owner and President, Campster Industries, Inc., Norwalk, California - 1972 - 1973
Marital Status	<div data-bbox="361 970 515 1042" style="border: 1px solid black; width: 100px; height: 35px; display: inline-block;"></div> <div data-bbox="739 940 1362 1113" style="border: 1px solid black; width: 405px; height: 85px; display: inline-block;"></div> <div data-bbox="1401 940 1455 991" style="display: inline-block; vertical-align: top;">b6 b7c</div>
	Lake View Terrace, California
Social Security Number	563-32-0097
CII Number	1 787 688
Glendale Police Department Number	G 13312

It is recommended the following investigation be conducted to ascertain if the sudden display of wealth by HAGAN was the result of an inheritance of property in Oregon from parents who allegedly live on a farm in the Eugene, Oregon area, and to determine if he should be considered a logical suspect in this matter:

RE: TED MAYFIELD
SUSPECT #3

Re Seattle airtel to Portland 5/21/73.

For information of Seattle and San Francisco, TED MAYFIELD, former world's champion parachutist, and former head of the Portland Parachute Club, contacted the Portland Office, telephonically at approximately 9 p.m., 11/24/71. MAYFIELD, who is known to SA RALPH P. HIMMELSBACH, talked with SA HIMMELSBACH, Portland NORJAK Case Agent, to volunteer his services and assistance, noting that he is a leading authority on parachuting in this area.

Portland Office has been in contact with MAYFIELD on several subsequent occasions, concerning this matter.

Note that MAYFIELD, although having armed robbery background, does not fit description of UNSUB in this matter.

In view of the above information, MAYFIELD is considered eliminated as a suspect in this matter, and no further investigation concerning him appears necessary.

Leads concerning suspects will not be set forth in this report as they are being handled by separate communication.

There are currently 637 suspects, 470 of whom have been eliminated. New suspects are being developed and systematic elimination of these suspects continues.

In an effort to facilitate interoffice communications, it is requested that all field offices originating NORJAK communications, not only refer to the appropriate communications but also include the suspect(s) name and alias(es) if known on the first page under the title NORJAK.

For the information of all field offices, the Bureau advised by airtel September 15, 1972, that this is the only aircraft hijacking in which the subject has not been identified and apprehended nor the ransom money recovered. All leads in this important case are to be set forth expeditiously. The investigation of this case is to be vigorously pursued in all facets in order to bring it to a successful completion.

It is noted that the investigative period overlaps previous NORJAK reports. This has been done since previous reports were not distributed to all field offices.

It is noted that Unsub in this matter is almost universally called "D. B. COOPER" by the press, the public, and even by Bureau personnel. Factually, there is no basis for this alias. As a possible explanation for the existence of the alias "D. B. COOPER" the following sequence of events is offered:

While the hijacking was in progress on the evening of November 24, 1971, it was established that a [redacted] had boarded the flight at Portland, but was not among the passengers who deplaned at Seattle.

b6
b7c

As a result, the name [redacted] was checked through the Bureau indices, which revealed an Identification Record for a [redacted] FBI Number [redacted] born in [redacted] with [redacted] in [redacted].

b6
b7c

INVESTIGATIVE STEPS TO PROCESS NORJAK SUSPECTS

In checking on suspect [redacted] that evening, the Portland Division advised that he definitely had been eliminated. A police officer of The Dalles, Oregon Police Department, visited him in The Dalles, and definitely identified him as the above [redacted] and the fact was noted that he could not have been on the plane since he was at The Dalles.

b6
b7c

There was no FBI release to the press concerning the above suspect, but the press coverage in Oregon, and in the State of Washington was so intense, it may have become known to the press, that the above [redacted] was contacted by a police officer.

b6
b7c

It is suggested that the fact that the name "D.B. COOPER" is not involved in this matter not be given publicity outside the Bureau in order to utilize this fact as an aid in the initial evaluation of new leads.

INVESTIGATIVE STEPS TO PROCESS NORJAK SUSPECTS

This list in no way represents all the means available to process a suspect. Each individual case prompts a different method; one or more of the below listed methods have been used in the past.

1. Obtain current descriptive data (particularly useful is age, height and complexion)
2. Ascertain location on November 24, 1971, by
 - (a) checking employment records.
 - (b) checking cancelled checks or credit card transactions.
 - (c) interviewing acquaintances or relatives (note November 24th was the day before Thanksgiving, 1971).
3. Ascertain present location to determine if he is alive or if he appears to be in hiding.

SE 164-81

4. Ascertain if he has knowledge of airplanes or parachuting (i.e. private pilot's license, skydiving experience, or military jump experience).
5. Obtain current photograph, color if possible, to display to witnesses. (Note: All NORJAK eyewitnesses have been repeatedly contacted and have reviewed numerous photographs. Up to now they have been extremely cooperative, not withstanding the many contacts they have endured both at work and at home. Based on the above, these witnesses will not be contacted to view photographs unless there is no other way to eliminate a suspect).
6. Compare suspect's fingerprints and palm prints with NORJAK partials on file in the Identification Bureau.
7. Ascertain if he is in any way familiar with the Pacific Northwest area and in particular if he ever flew over this area.
8. Check current financial situation and contrast it to his situation prior to NORJAK.
9. Determine if he smokes cigarettes or if he ever smoked cigarettes. (Note: Unsub smoked Raleigh cigarettes).
10. Determine if he was registered at a motel or hotel near the Portland Airport just prior to NORJAK.
11. Determine if he made any trial runs prior to NORJAK on airlines flying between Portland and Seattle.
12. Determine if he has a safe deposit box and consider feasibility of obtaining a court order to determine its contents.
13. Compare his hair to hair fiber found on NORJAK airplane.

SE 164-81

14. Check medical records (subject was apparently in good health and athletic at the time of NORJAK but he could have been injured in the jump).
15. Determine if he had reason to have a grudge on November 24, 1971. (Possibilities might be loss of job, especially airline-related job, Vietnam War, ethnic freedom, etc.)
16. Determine his criminal background. (It is felt Unsub was not an experienced criminal.)
17. Determine suspect's educational background. (Unsub was probably a high school graduate and may have had further education.)
18. Determine if he is or was an alcoholic. (It is felt Unsub was not an alcoholic.)
19. Determine if he has an accent of any kind. (Unsub did not.)
20. Determine if the tie or tie tac found on NORJAK belongs to suspect.
21. Check suspect's name through
 - (a) St. Louis Office for military records to determine jump experience. (Note: need service number or SSAN.)
 - (b) Airline Pilot Association (ALPA), headquarters Washington, D.C.
 - (c) Parachute Club of America, U.S. Parachute Association, PO Box 109, Monterey, California 93940.
 - (d) Raleigh Coupon Redemption Center, Brown and Williamson Tobacco Company, Hill Street, Louisville, Kentucky. (Records kept only one year.)

PROFILE

The purpose of the following information is to conveniently list all the known facts concerning the hijacker's profile and to combine them with suppositions that can be reasonably inferred from those facts. The suppositions have been included to aid in processing a suspect. They should not be considered as concrete facts, nor should they be used as the sole determining factor in drawing investigative conclusions.

SUMMARY

Unsub was a well spoken, conservative gentleman; probably a Catholic with Mexican or Indian blood. He was not an alcoholic. He probably lived in the Portland or Seattle areas or had flown more than once over these areas. He apparently had no accomplices. He was not an experienced skydiver and most probably received his jump training in the military. His hijacking plan was not well thought out, and he was probably not an experienced criminal. He was apparently having financial troubles prior to November, 1971, and he may have previously worked in an airline-related industry.

The reasons for the above suppositions are included below.

BACKGROUND

It is felt Unsub was not an experienced criminal because of his mannerism exhibited after he received the ransom money. Unsub reportedly became somewhat childish in his actions and comments while counting the money.

Unsub was familiar with the Seattle area, as indicated by his comments concerning the plane's location as it flew over Tacoma, Washington. In addition, Unsub made a comment as to the distance McChord Air Force Base was in relation to Sea-Tac Airport. Unsub reportedly indicated McChord was approximately 20 minutes from Sea-Tac, which is essentially correct.

SE 164-81

Unsub stated he was hijacking the aircraft because of a grudge. He may have had a relative, possibly a son, killed in Vietnam or he may have had recent financial problems which would foster such a grudge.

Unsub's complexion has been described as swarthy or dark. The grudge may be associated with his background which could possibly be Indian, Mexican or possibly Italian descent. Note unsub has been described by witness [redacted] as definitely having some Mexican or Indian "blood" in him.

b6
b7C
b7D

It is noted the northwest area at the time of the hijacking was suffering from a depressed economic condition, and since Unsub was familiar with the Seattle area as indicated above, it is possible Unsub was out of work at the time of NORJAK. In addition, Unsub demonstrated considerable knowledge of aircraft and of flying, and it is felt he was employed in the aircraft industry, either civilian or military at one time in his life, therefore, it is logical to assume unsub may possibly have been out of work in an airlines-related industry.

His actions and reactions that occurred throughout the hijacking indicate unsub probably was not a desperate man, nor was he mentally ill such as a paranoid type. Unsub exhibited an unusually calm manner throughout the whole hijacking.

Unsub was probably a "loner" and carried out the hijacking by himself, with no partners. Throughout the hijacking, he exhibited a competency in reacting to various situations that arose. It is believed that Unsub was not an experienced criminal, but a victim of circumstances.

Unsub's physical build and his handiness with the parachute shroud lines indicates coordination and some physical ability as well as inventiveness. (It is noted that during the hijacking unsub requested a knapsack to put the money in and he received a small white bag instead. Unsub took a small pocket knife from his person and fashioned a means to attach the small bag to his body using parachute lines from an unused parachute. Since it is

SE 164-81

believed unsub was not well prepared for the hijacking and had not thoroughly thought the hijacking out, he most probably always carries a small pocket knife with him.

The following information tends to indicate unsub was somewhat conservative in his thinking and dress:

1. Short style hair
2. Age mid 40's
3. Dark colored suit, dark colored raincoat, white shirt, narrow black tie.
4. Unsub did not swear and showed a great deal of respect for the stewardesses on the airline because they were women. (Unsub engaged in a small argument with one of the passengers, as well as experiencing extremely tense and nervous situations, and through it all he never used profane language - this might indicate he is possibly a religious man. Since he did drink, and since he is possibly religious, he probably is not a Baptist or Mormon.)

The following information tends to indicate Unsub possibly possessed athletic ability:

1. His physical build was described as average to well built, even though his age was described as in his mid-40's.
2. Unsub exhibited some physical dexterity using his hands and a small knife.
3. Unsub apparently parachuted from an aircraft at night; something that would require no small degree of physical ability.

It is felt unsub possibly maintains his physical well being through regular exercise.

SE 164-81

The following information tends to indicate the Unsub was a gentleman:

1. He offered to tip the stewardesses on the NORJAK flight after he received his ransom money. He did not offer them ransom money as the tip, but used his own money.
2. During the entire hijacking he did not use profane language.
3. Throughout the hijacking he maintained a calm demeanor and spoke low and intelligently.

The following information tends to indicate Unsub lived in the northwest area at some time in his life:

1. Unsub knew the distance from McChord to Sea-Tac and recognized Tacoma, Washington from the air.
2. Unsub was dressed in a suit and lightweight overcoat which is commonly worn by many northwest area residents.
3. No accent or unusual speech mannerisms were detected by the Northwest Airlines stewardesses who had a chance to observe him.

SPORT PARACHUTIST

The hijacker is probably not a sports parachutist nor is he a member of a sport parachute club. The reasons for this are as follows:

1. The hijacker requested two back parachutes and two front parachutes. He gave no specific instructions as to the type of parachute that he desired. (i.e. a sports parachutist would probably have requested a steerable sport

2. Several sport parachutists have advised that a sport parachutist possesses an emotional attachment to his parachute and probably would not jump from an aircraft with anyone else's chute, nor would they jump with a chute they had not packed themselves.

The hijacker was furnished a parachute that opens quickly, has a high rate of descent, and one that was not steerable.

3. The hijacker was furnished two front parachutes, commonly called chest packs which are to be used in an emergency when the back pack parachute or main parachute fails to open properly. The chest pack parachute the hijacker took with him was a dummy parachute. It was designed for lectures to demonstrate to new parachutists the proper method of opening a chest pack parachute. It is felt an experienced sports parachutist would probably have noticed this defect.

4. Unsub's age has been described as mid 40's and it is noted that the average age in most sport parachute clubs is mid 20's. If Unsub was a member of a sport parachute club he would certainly be an unusual member, one that would be easily recognized by the other members, as well as one that was well known because of his unusual age. It is felt that due to the large amount of publicity afforded this case, someone in a sport parachute club would have recognized his fellow "sky diver" as being identical with Unsub if in fact Unsub was a member of any sports parachute club.

When the stewardess presented the parachutes to the hijacker she also presented an instruction sheet on how to utilize a parachute. At that time, Unsub stated he did not need any instructions concerning the use of a parachute.

Since Unsub did not specify a specific type of chute and because of the above reasoning concerning Unsub's age, it is felt Unsub was not an experienced jumper or even a sport jumper. In addition, Unsub probably had some jump training most probably obtained while in the military.

HABITS

Unsub drinks in moderation and is probably not an alcoholic. Unsub ordered one bourbon and seven at the beginning of the flight and although he was offered several free drinks later, he turned them down. This would indicate that Unsub possessed sufficient willpower to refuse alcohol in a tension-filled situation. It is believed an alcoholic or a former alcoholic who had just had one drink and was placed in a situation of similar stress would succumb to the pressure and imbibe in the free drinks offered him by the stewardesses.

Located in the ashtray utilized by Unsub were eight cigarette butts, seven of which have been identified by the FBI Laboratory as Raleigh filter cigarettes, and the eighth cigarette is possibly the same. These cigarettes are sold in a "soft pack". Unsub was in the aircraft eight hours in an extremely tense situation. During the eight hours, he had eight cigarettes. A two-pack-a-day smoker would have consumed 20 cigarettes in eight hours under normal circumstances. It is felt Unsub may possibly smoke less than one pack a day.

CLOTHES

Located in Seat 18 E (the seat Unsub occupied) was a black clip-on tie which contained a tie clip described as yellow gold in color, with a white pearl circular stone in the center. The label in the tie bore the name "Towncraft" and bore the legend "Store 3, Penneys". The label in this tie showed it to be a "Snapper" patent type tie. Investigation at Las Vegas indicated this type tie was sold for about \$1.50 and that this particular tie was about a year to a year and a half old. It was a favorite item for individuals such as waiters, busboys and bartenders.

Stewardess [] has said that this tie, found on the aircraft, was probably Unsub's and other witnesses have indicated he wore a similar type tie.

b6
b7c

Since Unsub wore a tie during the hijacking and for other reasons described above, it is felt he was possibly an executive. However, since the tie was narrow and a clip-on type not currently in style, Unsub was possibly not on a top-level executive.

Unsub carried with him a cheap briefcase that appeared to be new. It is thought the hijacker probably purchased this briefcase just prior to the hijacking to be used during the hijacking only.

Unsub wore a white shirt with small collar points indicating he probably did not have the money to obtain a more fashionable wardrobe (i.e. more colorful shirts with larger collars currently in style). The white shirt could also indicate the hijacker's conservative taste in clothing.

EDUCATION

Unsub was assessed to be a high school graduate possibly with some college training, based primarily on vocabulary used during the hijack. Further, Unsub impressed stewardesses as possibly being experienced in dealing with people. They, therefore, concluded he was the executive type and seemed to naturally dictate the ransomed demands to the stewardesses in lieu of writing the notes out himself.

UNKNOWN SUBJECT;
NORTHWEST AIRLINES FLIGHT #350,
PORTLAND, OREGON, TO SEATTLE, WASHINGTON
NOVEMBER 24, 1971

Character:

CRIME ABOARD AIRCRAFT - HIJACKING; EXTORTION

Synopsis:

On November 24, 1971, a white male skyjacked a Northwest Airlines Flight from Portland to Seattle. The hijacker demanded and received \$200,000 and four parachutes upon landing at Seattle-Tacoma International Airport. After receiving the ransom money, the hijacker allowed the passengers to leave. The plane then took off for Reno and at 8:11 p.m. a pressure oscillation was noted by the plane's crew. That pressure oscillation was probably caused by the hijacker leaving the aircraft. Search of the aircraft at Reno revealed the hijacker was not in the plane when it landed. Extensive searches of the area into which the hijacker would have landed failed to locate the hijacker or any evidence of value. The initial black and white artist composite drawing of the hijacker was changed to a color sketch to more accurately reflect the hijacker's age and swarthy complexion.

First Skyjacking Utilizing Parachutes.	40
SR 71 Flight	45-47

SE 164-81

THE HIJACK

SE 164-81

The Unsub, aka [redacted] at 2:00 PM, Pacific Standard Time, November 24, 1971, purchased a one-way coach ticket at the Portland International Airport, Portland, Oregon, for travel from Portland to Seattle, Washington, on Northwest Orient Airlines Flight Number 305, which was a Boeing 727 aircraft. Unsub paid for this flight with a twenty dollar bill and had no luggage. He occupied seat number 18 E on the aircraft.

b6
b7C

The Boeing 727 has three seats on each side of the aisle. Row 18 is the last one on both the right and left side of the aisle. The seats are identified from left to right as you face the front of the aircraft with A,B,C on the left side of the aisle and D (aisle seat), E (center seat) and F (window seat) on the right side.

Almost flush against the back of row 18, except for some eight inches near the aisle, is a bulkhead which forms the wall for the lavatories, located behind row 18; one on the right and one on the left. Beyond the lavatory doors is the door leading to the air stairs.

The door to the air stairs is always closed and locked, except when loading or unloading passengers. It is located straight away at the end of the aisle beyond row 18 and is perhaps some 3½ feet from the last row and is in easy reach for someone sitting in row 18.

Built into the lower portion of the door to the air stairs is the stewardess seat which is pulled down when in use, so that a person sitting in that seat looks straight down the aisle toward the front of the aircraft. On take-off this seat was occupied by Stewardess [redacted].

b6
b7C

Prior to the time the aircraft taxied on the runway, he purchased a bourbon and Seven Up from Stewardess [redacted]. As the aircraft taxied toward the runway for takeoff, Unsub turned and handed Stewardess [redacted] an envelope containing a note written in black felt-tip pen on plain white unlined paper which said:

"Miss, I have a bomb here and I would like you to sit by me".

SE 164-81

The hijacker then dictated the following:

"I want \$200,000 by 5:00 p.m. in cash". (No specification as to denomination, age or sequence of bills). "Put it in a knapsack. I want two back parachutes and two front parachutes" (no other specification concerning parachute types). "When we land I want a fuel truck ready to refuel" (probably his flying experience caused him to add this). "No funny stuff or I'll do the job" (the first attempted parachute skyjacking had been foiled about 12 days earlier by the hijacked aircraft's crew.)

The hijacker showed both Stewardesses the contents of his briefcase and stated it was an electrical device and requested the aircraft radio be used as little as possible.

The hijacker explained why he hijacked this plane by stating "it's not because I have a grudge against the airlines, it's because I have a grudge."

The hijacker then added that the flight suited his time, place and plans (probably the convenience of a Portland to Seattle flight suited the hijacker).

The hijacker very carefully demanded that each and every note either written by him or dictated to the stewardess by him be returned to him and he also had a used match cover which was used to convey notes returned to him.

Stewardess [] showed Stewardess [] the demand notes and then went to the cockpit where she displayed them to the captain of the aircraft. She thereafter remained in the cockpit where she prepared thirteen pages of notes concerning the hijacking.

b6
b7c

The aircraft landed at Sea-Tac at 5:46 PM, PST, at which time \$200,000. in twenty dollar bills, weighing 19 pounds, two back chutes and two chest chutes were given to him in a white canvas bag. The passengers then were allowed to deplane as were Stewardess [] and another stewardess.

b6
b7c

The hijacker went to the lavatory just behind row 18 (the row he which he was sitting) and as he exited the lavatory he was seen carrying the briefcase on its side in both arms, with a 12"x16"x4" light-colored package on top of the briefcase.

SE 164-81

Stewardess [] then acted as a communications media between the Unsub and the captain of the aircraft until about five minutes after the aircraft departed the Seattle-Tacoma International Airport when she was instructed to go to the cockpit by the Unsub.

b6
b7c

The hijacker's instructions after receiving the money were vague. He probably wanted to jump from the aircraft as soon as possible after the takeoff. The hijacker put two of the parachutes, a back pack and a front pack, on prior to take off. He also wanted the air stairs lowered prior to takeoff, which subsequently proved to be impossible. Finally the hijacker jumped as soon as practical after the stairs were lowered in flight. The hijacker was delayed from jumping by the trouble he experienced in lowering the air stairs and by the fact he was not provided a knapsack but rather a small white canvas bag which he had to affix to her person utilizing parachute shroud lines from an unused parachute.

The plane departed Sea-Tac at 7:36 PM. Some four or five minutes after take-off, [] was sent to the cockpit by the hijacker. Some ten minutes after she entered the cockpit, one of the officers received a call on the interphone from the hijacker, advising he could not get the air stairs down. The pilot then leveled off the aircraft and reduced the air speed. Within a very short time, the officer's panel showed that the stairs had been lowered and approximately five minutes later, (8:05 PM), the officer contacted the hijacker who said everything was okay. That was the last communication with the hijacker.

b6
b7c

At 8:11 PM, while the plane was at 10,000 feet, the crew experienced a pressure bump or oscillation and the Cabin Pressure Rate of Change Gauge also reacted violently and it was thought, at that time, that the hijacker might have left the aircraft.

When the aircraft landed at Reno, Nevada, a chest pack chute and a back type chute were found on the plane. The missing chest pack chute, sometimes referred to as an emergency chute, is a training pack "dummied up" to look like a good one. The missing back pack chute is non-steerable and anyone utilizing this type chute would have no chance of slowing down or picking his spot on which to land.

SE 164-81

Also located in sear 18 E of the aircraft at Reno, was a black clip-on tie which contained a tie clasp described as yellow gold in color with a white pearl circular stone in the center. The label in the tie bore the name "Towncraft" and bore Store #3, Penneys. The label in this tie showed it to be a "Snapper" patent type tie. Investigation in Las Vegas indicated that this type sold for about \$1.50, that it was about a year to a year and a half old, and it was a favorite item for individuals such as waiters, busboys and bartenders. Stewardess [redacted] has said that this tie was probably the Unsub's and other witnesses have indicated that he wore a similar type tie.

b6
b7c

Located in the ashtray utilized by the Unsub were eight cigarette butts, seven of which have been identified by the FBI Laboratory as Raleigh filter tip cigarettes and the eighth cigarette is probably the same. These cigarettes are sold in a "soft pack".

The two seats which she had observed to be occupied by the unknown subject were processed for fingerprints. In addition the telephone, the area around the rear door, the rear door and four plastic drinking glasses found in the trash receptacle by the back door were also processed for fingerprints. In addition, a cloth towel affixed to the rear of one of the seats reportedly occupied by the unknown subject was removed and examined by Reno Agents. On that towel was noted what appeared to be a short human hair.

The FBI Laboratory by communication dated December 9, 1971, advised that an examination of the towel submitted by the Las Vegas Office, disclosed a brown head hair clipping and a brown limb hair, both of Caucasian origin. The report continued that the head hair clipping is suitable for significant comparison results, but that the limb hair possesses to few unique microscopic characteristics to be of value for that purpose.

The Laboratory also advised that the hairs obtained from the towel have been mounted on a glass microscopic slide. They suggested that if microscopic comparisons between

EE 164-81

between the head hair clipping and a known head hair sample were desired, that the glass microscopic slide containing the hair clipping should be resubmitted to the Laboratory by the Las Vegas Office.

The contents of the ashtray, the towel and the microscopic slide were returned by the Laboratory to the Las Vegas Office and are being held by the Las Vegas Division as evidence.

LOGS BY NORTHWEST ORIENT AIRLINES,
SEATTLE AND MINNEAPOLIS

It is apparent from the following excerpts, taken from logs maintained by ground personnel on November 24, 1971, that the hijacker exited the airplane at 8:11 p.m. local time.

When the hijacker jumped, the air stairs were forced closed causing an increase in air pressure similar to shutting a car door with the windows up. As this pressure increase occurred the co-pilot turned to look at the cabin rate of climb meter and in doing so his communications ear plug was pulled from his ear.

The co-pilot's comments at this time were being recorded on a tape recorder which had previously been started on a time standard signal. Through careful play back and sequencing, the time of the pressure oscillation caused by the air stairs closing after Unsub departed was determined to be 8:11 p.m. local time.

Ransom money in the amount of \$200,000 was made up entirely of used, random 20 dollar bills. It was obtained from the Seattle First National Bank, Main Office, and was part of a ransom package of \$250,000. which had been maintained by the bank for such emergencies. The package measured approximately one foot by one foot by eight or nine inches and weighed 19 pounds.

A check of the Federal Aviation Administration flight section at Portland International Airport reflected that on November 24, 1971 between 8:00 PM and 9:00 PM, there was a ceiling of 5,000 feet, 3,500 feet broken clouds, and at 1,500 feet scattered and broken clouds at times with a wind of 12-14 knots. The temperature at the end of the air stairs at the time of the jump was approximately 0° C.

On October 5, 1972, Mr. DONALD W. NYROP, President, Northwest Orient Airlines, Minneapolis-Saint Paul International Airport, advised he authorized a finers fee of \$25,000 total reward or 15% for any portion of the ransom money that is returned.

In addition, The Seattle Post-Intelligencer, a local newspaper in Seattle, has offered \$5,000 for information leading to the arrest and conviction of Unsub.

SE 164-81

SEARCH AREA

Northwest Airlines (NWA) Flight 3305, departed Seattle-Tacoma International Airport (Sea-Tac), under hijack 11/24/71, at 7:36 PM. At the orders of the hijacker, the landing gear and flaps were down. After the plane was airborne, the hijacker and Stewardess [redacted] discussed the opening of the rear door and the lowering of the air stairs. In less than five minutes after take-off, the hijacker instructed Stewardess [redacted] to go forward into the First Class Section and close the curtain behind her and not to return to the rear compartment again.

b6
b7c

At 7:42 PM, the crew advised that the stair light was on, indicating that the hijacker was doing something with the air stairs. The plane, at that time, was flying at 7,000 feet.

The log contained an entry at 8:05 PM, indicating the crew had on two occasions, attempted to make contact with the hijacker but he did not reply. However, he then spoke over the PA system and said "everything is okay."

An analysis on 11/24 and 25/71, of the flight path of the aircraft, after it left Seattle, and the logs provided by NWA, suggested that the hijacker was still in the airplane as of 8:05 PM. At that time the plane, according to radar tracking by the U.S. Air Force, was located at a point north of the Pidgeon Springs, Washington area and east of Ostrander, Washington. This would have been the northern most point when he was known to be on the aircraft.

At 8:11 PM, according to a log maintained by NWA, the crew reported that they were "getting some oscillations in the cabin, must be doing something with air stairs." An analysis as to the cause of this oscillation, also referred to as a "pressure bump" or "change in the cabin pressure" pointed to the probability that it was caused by the hijacker leaving the aircraft.

SE 164-81

On 1/6/72, the NWA 727 which was actually involved in the hijacking, was flown to Seattle, by [redacted] for the purpose of conducting a test to see if the "pressure bump" experienced during the hijacking, was caused by something leaving the aircraft.

b6
b7c

The conclusion from that test was that the cabin pressure change occurred when the stairs were forced upward by the air pressure after the weight had been removed, according to [redacted], who was a member of the hijacked crew, and also a member of the crew when the test was performed, the occurrence was identical with the incident on the night of the hijack. Also the instrument in the cabin which reacted so violently on the night of the hijacking, also reacted the same way when the test was performed.

b6
b7c

[redacted], based on the test flight above, then prepared a memo showing the steps by which he arrived at the best probable bail out point of the hijacker, and plotted this area on a map. This information is set forth as follows:

b6
b7c

The attached plot in *Figure 1* shows the probable landing points of the *HH-3A* (C-130) based on the following:

- Aircraft position from USAF radar data from McChord AFB furnished by
- Probable jump time (C-130 CH-1) from an analysis of the recorded communication from the flight relative to the cabin pressure fluctuation. Flight is confirmed on January 6 confirmed that the pressure fluctuation almost certainly occurred at the time the *HH-3A* left the airplane.
- Wind information from 10,000' MSL to the ground as determined by NWA
- Human body trajectories from data furnished by The Boeing Company (New York) and NWA (unconscious open condition) who is an expert parachutist.
- Time correlation from the above USAF radar information and from the NWA communications network tape recording.
- Airplane airspeed and altitude from the airplane's flight recorder.

b6
b7c

b6
b7c

The plot is explained as follows:

1. The heavy dashed line C-D-E-S defines the airplane's probable ground track.
2. Line G-I-J-K defines the westernmost, and Line L-M-N-O the easternmost probable airplane ground tracks based on the stated position tolerance of ± 1.5 nautical mile of the USAF radar plot.
3. Lines A-B, H-P, and Q-R are the average wind vectors between 10,000' MSL and the ground, and are the lines parallel to which the *HH-3A* would drift after the parachute had opened.
4. Line H-S-T defines the northernmost (earliest) points over which the *HH-3A* probably left the airplane. Line K-F-U defines the southernmost (latest) points over which the *HH-3A* probably left the airplane. The north-south span of possible jump positions is a product of the radar position tolerance of ± 1.5 mile, and the possible communication time determination tolerance of ± 1 minute.
5. The area within the boundary defined by Points H-P-Q-R-O-K-J-I-H marks the extreme limits of probable landing points based on the above tolerances. That is, assuming the highest probable degree of inaccuracy in aircraft position, jump time, wind vector, etc., all probable *HH-3A* landing points would lie within the area defined by this line.
6. If it is assumed aircraft position, jump time, wind vector, and other inputs used are all accurate (without allowance for the above stated tolerances):
 - a. The *HH-3A*'s landing point would be at Point A if his chute did not open, or if he opened it so soon that the high speed caused "chute damage" that resulted in the equivalent of a free-fall to the ground. (The horizontal body trajectory would be to

it being at least 1000 feet above the airplane at the time it left the airplane, since it would be at least 1000 feet above the airplane if it had been at the point of fall all the way to the point of fall (the point of fall).

- b. If the chute was opened without damage immediately after the HU left the airplane, he would exit with the wind along Line A-B and would land at Point B. The more expert he was, the lower he would probably free-fall (to limit his drift with the wind). The lowest probable altitude to which he would free-fall is 2500' MSL. If he free-fell to 2500' MSL, the chute would be at Point U.

Based on the above, the most favorable search areas, listed in their order of priority, would be as follows:

- At Point A.
- Along Line A-B, favoring the segment between U and B.
- South of Line A-B.
- North of Line A-B.

In addition to the above, the following are pertinent:

- The landing point is more likely to be south of Line A-B, and it is more likely to be in the northwest portion of area A-B-R-O-K-J-A than in the southeast portion thereof.
- It is substantially less likely that the landing point is north of Line A-B. If it is, the most probable point is south of the Lewis River, and in the southwest portion of the area defined by Points A-B-I-J-A.
- It seems highly unlikely--though possible--that the landing point is north of the Lewis River, but if it is, it is more likely to be in the southwest portion of the area defined by Points Q-M-V-I-R-P-Q.

If there are any questions relative to the above, they should be referred to the undersigned.

January 9, 1972

On 11/24-25/71, based on information available from NWA, a search area was laid out in the southwest portion of the State of Washington, which was bounded by Woodland, Washington, on the west, Anboy, Washington, on the east, Kalama, Washington on the north and a point seven miles north of the Columbia River, on the south. The prime search area was in an area seven miles east and seven miles west of an eight mile long flight line of the hijacked aircraft, bounded by an area two miles north of Lake Merwin and the Lewis River on the north, Anboy on the east, Woodland, on the west and Battle Ground, Washington, on the south. The search area was divided into six sectors. Four helicopters and seven fixed-wing aircraft were utilized in an intensive, gridded air search of the prime area and a well executed search of the secondary search area on 11/26, 11/27 and 11/29/71.

Ground units of local law enforcement personnel and Bureau Agents, made a house-to-house canvas of every dwelling and business establishment on every road in the prime search area from 11/25/71 through 12/3/71. Most of the roads in the full search area were also intensively covered in a door-to-door canvas, with negative results. All leads developed in this search which was coordinated with the air search, were checked with negative results. One item concerning a small aircraft flying in the vicinity of two private airfields west of Yacolt, Washington, was completely checked and it was found that the aircraft in question was a private plane flown by a known private pilot in the area and the flight took place the evening of 11/23/71.

All sightings from the air were checked by ground units with negative results. Lake Merwin was patrolled from the lake by two boats for its entire 42 mile length, of navigable water and also to the full extent of its 80 mile length, with negative results.

SE 100-83
TJH:kdl

Based upon information received from the Seattle Division on November 25, 1971 preliminary steps were taken to alert all law enforcement agencies in Cowlitz, Lewis, Wahkiakum, and Clark Counties concerning the search which was to be instituted for the subject. A meeting was held with members of the Clark and Cowlitz County Sheriff's Offices and local agencies at the Woodland, Washington City Hall and Police Department which was designated as search headquarters in view of its proximity to the Woodland airport at which facilities were available for fixed wing aircraft and helicopters. Arrangements were made for helicopters and fixed wing aircraft to be available on November 26, 1971 and the search area was divided into seven sections, one of which was located in the Lewis River area of Cowlitz County and the others in the north-eastern section of Clark County.

On November 26, 1971 personnel of the Clark County Sheriff's Office, under the direction of Sheriff EUGENE COTTON, and [redacted], consisting of twelve cars and four aerial observers, seven cars of the Cowlitz County Sheriff's Office, and eleven deputies under Sheriff CHARLES E. GILL and [redacted]. In addition, three officers of the Woodland, Washington Police Department and six Agents were at the scene.

b6
b7c

On November 26, 1971, after law enforcement officers were briefed on facts known to that point and what was being sought and having been familiarized with the prime search area of 150 square miles, the various ground units were dispatched to Cowlitz and Clark Counties with instructions to contact all available residents and businessmen on every road in the assigned section to secure information concerning the subject. The description, then available, was furnished to all personnel involved in the search. Further instructions were given to the officers to request individuals contacted to contact their neighbors and acquaintances to insure that all residents of the prime search area were cognizant of the hijacking and the description of the subject.

SE 164-81
Woodland

On November 26, 1971 the Lake of the Hills area, partly located in the police search area, was searched and controlled by a detachment of the Carbon County Sheriff's Office with all suspicious sightings personally checked. One sighting of a white object on the south side of the lake was un-identified and checked on November 26, 1971 but on November 27, 1971 was checked by helicopter with negative results.

On November 26, 1971 two Army helicopters, one Bonnevillie Police Administration helicopter, and one Hoyerhausen Company helicopter plus five fixed wing planes from Woodland and Vancouver, Washington were alerted to the search area for seven hours of total flying time. Several sightings of unidentified items were checked by ground contact with negative results.

On November 27, 1971 the search was continued with the same number of personnel, ground units, three helicopters and seven fixed wing planes. The search area on this day encompassed a 100 mile wide area and was held out based upon the sighting reported by Heath and a plane in a specific position as the other is 1.50 mile plane. An area of 100 miles was searched on the east and west sides of the coastline from the path and entrance from the vicinity of Klamath Falls, Oregon to the suburbs of Vancouver, Washington was guarded and checked closely by the aircraft mentioned with negative results. All sightings of suspicious items were checked with negative results.

The ground search on November 27, 1971 consisted of contacts by personnel in ground units with as many individuals as possible in the search area.

On November 27, 1971, in addition to contacting all individuals in the search area all airfields with any aircraft or parachuting schools or activity were contacted from Vancouver - Camas, Washougal area to Woodland. A number of individuals contacted at these locations gave information pertaining to skydivers, pilots, clubs involved in skydiving and other information, all of which has been checked with negative results.

On November 28, 1971 the house to house canvass of business establishments and houses in the prime search area of 150 square miles was continued by Agents of the Seattle Division. 71 individuals contacted were queried concerning the subject and were shown composite drawings and given physical descriptive materials. The search area was gridDED and close contact was kept with the control point until all streets, roads, highways, and passable byways were covered all with negative results.

SE 164-81

On November 28, 1971, reports of planes flying at night on November 23, 1971, in the vicinity of the airfields located at View, Washington, and in the vicinity of County Road 42 and Grantham Road in Clark County as well as other small airports in Clark and Cowlitz Counties were checked with all flights being explainable and normal.

On November 29, 1971, the area from Woodland, Washington, up the Lewis River Road to Cougar, Washington, and Yale Lake was covered on a house to house basis, all locations being in Cowlitz County. The business establishments and private homes contacted all had information concerning the subject and his physical description.

Further house to house coverage was afforded in an area near the midpoint of a circle specified by Northwest Airlines as the center of the suspected area in which the subject exited the airplane. Every house and business establishment in a 20 mile square area was contacted or recontacted and it was found all individuals contacted had information on the subject but no information of value other than that previously reported.

On November 30, 1971, all doctors, clinics, hospitals, and agencies which could render medical assistance to an individual who could have broken limbs or severe abrasions from being in a heavily wooded area were contacted and were also circularized with a composite photograph and description of the subject in Clark, Lewis, Cowlitz, Wahkiakum, and Skamania Counties.

A Bonneville Power Administration helicopter and one fixed wing aircraft upon a partial clearing of the weather continued an air search concentrating on the area which has a center point of a circle as furnished by Northwest Airlines. The search took in an area approximately 150 miles square and nothing of a positive nature was found.

Further house to house canvassing was conducted by Agents in the prime search area near the center of the circle as provided by Northwest Airlines. Nothing of significant value other than that already secured was found.

On December 1, 1971, a fixed wing aircraft from Woodland, Washington, was aloft and covered an area during a slight period of clear weather which encompassed the area from Woodland, Washington, north to Silver Lake in Cowlitz County, a distance of 40 miles and a section 10 miles on either side of the flight path of the hijacked aircraft. While this was being conducted, Agents in ground units were conducting door to door canvass in the vicinity of the southerly end of Cowlitz County. Total area covered by air was 800 square miles with negative results.

On December 2, 1971, ten Agents walked in a defined search pattern the area in the immediate vicinity of the circle of search as set forth by Northwest Airlines. The terrain was found to be composed of fields which are being farmed and a number of impenetrable thickets which have fallen logs, hidden beaver ponds, and creeks and generally hazardous and most difficult terrain to search on foot. It was noted that in getting into the thicket and underbrush growth, it was so heavy that even if an item was five yards from the observer, it could easily be missed due to overgrowth problems. The area covered in this physical terrain search was 1 1/2 miles long and 2/3 of a mile wide and took approximately five hours. Negative results in the search.

FIRST TERRAIN SEARCH

The purpose of the first terrain search was to search for possible evidence left behind by Unsub and to find the remains of Unsub assuming he made an unsuccessful jump. The first terrain search commenced at 2:00 PM on March 21, 1972 with 218 Army troops including officers, 20 Special Agents of the Federal Bureau of Investigation and 9 helicopters. The area to be searched covered approximately 25 square miles.

Due to snowfall in search area on March 25, 1972, the search was temporarily held up. Army troops remained on location and the search resumed at 12:00 Noon on March 26, 1972. The search was temporarily discontinued at 12:00 Noon March 30, 1972 to allow search personnel to rest and enjoy the Easter Holiday. The Army search equipment was retained at search headquarters at Merwin Park.

The search recommenced 7:15 AM, April 8, 1972, with 265 Army personnel and 20 Agents. Snow, sleet and freezing rain hampered search on April 12, 1972. Remaining areas to be searched were reached only by helicopter insertion of search personnel and landing zones in most cases were under 6 to 12 inches of snow.

The search of the entire area was completed at 1:00 PM, April 17, 1972 with nothing found.

HUNTERS SEARCH

Prior to the 1972 hunting season, the following information was made available to Washington State Game Wardens who supervise the area into which the hijacker parachuted:

"On November 24, 1971, a man parachuted into the below-described area with \$200,000 in \$20 bills. If, while camping or hunting, you should discover any evidence concerning this skyjacking please contact the nearest FBI office.

SE 164-81

AREA INVOLVED

"Bound on the west by US 5, bound on the south by the Columbia River, bound on the north by the Kalama River, and bound on the east by the Skamania-Clark County line.

WHAT TO LOOK FOR:

- "1) The remains of a man, possibly dead for one year.
- 2) The remnants of a parachute, harness or parachute shroud lines.
- 3) 10,000 \$20 bills wrapped in a parachute canopy, all serial numbers are known and can be identified.
- 4) Deteriorated raincoat or overcoat.
- 5) Small briefcase or attache case.

REWARD:

The above information in the form of letters was distributed to hunters by game wardens.

The remains of JAMES ANNIS were found by hunters near Cougar, Washington on November 5, 1972. ANNIS, 16 years old in 1971, was reported missing on November 13, 1971 while hunting. He was positively identified by dental examination.

Several leads were received as the result of the publicity afforded this case by the news media and the Washington State Department of Game Wardens. These leads

all received expeditious and thorough attention but all results were negative.

SECOND TERRAIN SEARCH

In attempt to determine the accuracy of the first search area, the following was learned:

The first search area was calculated using a system of plotting known as "GEOREF" (i.e. Geographical Reference) which has a plotting error of plus or minus one mile. A new plotting system using a computer generated latitude and longitude has a plotting error of plus or minus 1/2 mile. Using the new system, [redacted] Northwest Orient Airlines [redacted], plotted a new course for the NORJAK airplane and a new search area based on the new course. The new search area based on the new course. The new search area is partially outside the first area. (See maps.)

It is felt that if Unsub's parachute opened, he is no longer in the southwest Washington area, but if his parachute did not open he would be in a corridor along the flight path. The time of jump is known, and an area approximately one mile by seven miles represents the area Unsub would have landed in if his parachute did not open.

Because some of the above corridor fell in the old or first terrain search area, only an area 2 miles by 1/2 mile was searched during the second terrain search.

The second terrain search commenced March 12, 1973, and involved 10 Special Agents of the Seattle Office. It was temporarily interrupted on March 16 and resumed again March 26, 1973.

The second terrain search was completed March 29, 1973 with nothing found.

FAA RECORDS

The Seattle Division advised the Bureau by Nitel on June 8, 1972 of the following information concerning the Federal Aviation Administration records for licensed pilots:

In considering the feasibility of checking FAA records for all licensed pilots, the Oklahoma City Office has advised that FAA Aeronautical Center maintains records of over 850,000 licensed pilots. These records are filed by name or license certificate number, but not by age. Further, they do not include photographs of each licensed pilot. The FAA at Oklahoma City advises that records are permanently maintained at FAA on those pilots whose licenses have been revoked, expired or lapsed.

BOEING FILE REVIEW

THE BOEING COMPANY

b3

The Boeing Company made available their personnel files of Boeing personnel who were members of the 727 Air stairs test team and officers of the Boeing Skydivers Club, which went out of existence in 1960 or 1961. These files were reviewed and several of the personnel on the list were interviewed to determine if anyone involved in the air stairs

SE 164-81

test could have been the hijacker and to determine any information they might have possessed as to the identity of Unsub, all with negative results.

On July 31, 1972, [redacted], a Boeing Company [redacted], made available a copy of the Boeing Test Summary Report pertaining to the flight configuration of the 727. The following flight configuration was used during the Boeing air stairs test:

b6
b7C

Speed - 125 knots
Flaps - 25° down
Altitude - 10,000 feet.

In Seattle report of SA CHARLES E. FARRELL, February 16, 1972, it is noted that Unsub requested the following flight configuration prior to taking off from Seattle-Tacoma Airport:

Gear down

Flaps - 15° down
Altitude - 10,000 feet

Aft door open and the air stairs down.

When it was explained to the hijacker that the plane could not take off with the air stairs down, he reportedly said in a low voice, "Yes they can, but the cockpit can put it down after they get airborne."

On July 26, 1972, [redacted] advised that if the hijacker was a member of, or had consulted with a member of the Boeing Test Team, he would have known that the 727 could not have taken off with the air stairs down, nor would it have been necessary since the air stairs can easily be lowered in flight.

b6
b7C

Stewardess [redacted] remarked upon being interviewed shortly after the hijacking, that the air stairs and the controls for the air stairs were the only functions of the aircraft that the hijacker did not seem to be fully aware of.

RALEIGH CIGARETTES

Unsub is allegedly a smoker of Raleigh filter-tip cigarettes. The search of the plane involved in NORJAK conducted at Reno, Nevada, revealed eight Raleigh cigarette butts found near Unsub's seat.

On the possibility that Unsub may save Raleigh coupons and redeem them regularly, the following investigation was conducted:

On January 11, 1973, [redacted] [redacted] Coupon Redemption Center, Brown and Williamson Tobacco Company, Hill Street, Louisville, Kentucky, advised this is the only Raleigh coupon redemption center. Except for local residents who may come to the center personally, all redemptions are by mail with average of six million coupons received daily.

FIRST SKYJACKING UTILIZING PARACHUTES

In an effort to determine the origin of the D.B. COOPER hijacking (i.e. the original idea behind the skyjack plan), a review was conducted of the magazine and newspaper articles written just prior to NORJAK.

The below quoted newspaper article described the first known skyjacking in which a parachute was used by the skyjacker.

The Seattle Times, November 13, 1971:

"Calgary, Alberta - (UPI) - A masked hyjacker carrying more than 40 pounds of dynamite was knocked unconscious today by an Air Canada crewman wielding a fire ax. The crewman's action 3,000 feet in the air ended a six-hour hijacking which skipped back and forth over the United States - Canadian border.

"The hijacker, reported in fair condition today with a possible skull fracture, was putting on a parachute to bail out of the DC8 over Calgary when he was struck by the ax.

"The hijacker, carrying a shotgun in addition to the dynamite, took control last night of the Calgary to Montreal flight carrying 123 persons. Claiming to be a member of the Irish Republican Army, the man demanded \$1.5 million and a free passage to Ireland. (A touring I.R.A. spokesman denied that the hijacker belonged to the I.R.A.)

"After landing in Great Falls, Montana, the man accepted \$50,000 ransom. The plane took off, landed again at Great Falls, and the man let the passengers to unharmed. But, he ordered the plane with its five-member crew to take off again. Indecision on the part of the hijacker led the plane back and forth across the border before he apparently decided to jump.

"An Air Canada official said that as the hijacker was preparing to jump, the pilo., [REDACTED]

b6
b7C

SE 164-81

jumped him and [redacted] came up behind him and 'let him have it with a fire ax.'

b6
b7c

"Flight 812 made its first landing at Great Falls after the hijacker had taken over 40 miles west of Winnipeg, Manitoba. There it was refueled and the \$50,000 was handed to the hijacker by a policewoman. The money was raised by bankers as the plane circled the city for two hours.

"The plane then took off for a scheduled stop in Regina, Saskatchewan, to let the 114 passengers aboard disembark. The plane did not land in Regina, however, but turned back and set down in Great Falls again where the passengers and three of the nine crew members were set free.

"On its second take-off from Great Falls, Air Canada officials said the hijacker wanted to be taken to New York City before proceeding to Ireland. The man, described as 5-foot-7, dark-haired and in his 30's then decided he wanted to go to Phoenix, Arizona, but finally settled for Calgary.

"At Great Falls Airport, Gov. FORREST ANDERSON and hundreds of onlookers stood by. ANDERSON said he came to persuade the hijacker to surrender or at least release the passengers. He never saw the hijacker, however,"

The Seattle Post Intelligencer

"Calgary, Alta. - (UPI) - A masked man armed with a sawed-off shotgun and dynamite who could not make up his mind where he anted to go was knocked out by a crew member early today to end a bizarre hijacking flight on an Air Canada DC 8.

"The hijacker was captured when a crew member struck him with a fire ax as the man was bending over to put on a parachute he was carrying, Air Canada said. A local hospital reported the hijacker suffered lacerations on his head.

"The plane - originally bound from Vancouver, B.C. to Montreal - was commandeered with 127 persons aboard.

SE 164-81

"It had flown back and forth between Canada and the United States at the orders of the hijacker who at first said he wanted to go to Ireland. He claimed to belong to the Irish Republican Army (IRA).

"The passengers were released on the second of two stops the hijacked plane made at Great Falls, Mont.

"Just before landing here [redacted] of the four-engine jet radioed that the hijacker was unconscious, Air Canada officials said. [redacted], however, called for bomb disposal experts to stand by.

b6
b7c

"Right after landing in Calgary the man was whisked away by ambulance.

"Earlier the man had extracted \$50,000 ransom for the release of the passengers and most of the crew during the second time it landed at Great Falls.

"The guy was wearing a mask and holding what appeared to be dynamite and a sawed-off shotgun," an Air Canada spokesman said in Montreal.

"The hijacker first demanded \$1.5 million ransom and a flight to Ireland. After hijacking the plane following a stop here, he ordered it to Great Falls where a policewoman carried two suitcases with \$50,000 to the cockpit and they were raised by a rope [redacted].

b6
b7c

"The hijacker then ordered the plane to fly to Regina, Sask., where he said the passengers would be released, but after a half hour, the plane returned to Great Falls and the passengers were released there.

"While the plane was on the ground in Great Falls, an unidentified FBI agent tried unsuccessfully to talk the hijacker into giving up. The plane took on 130,000 gallons of fuel at Great Falls for the possible flight to Ireland.

"The plane took off for a second time with the [redacted], filing a flight plan for Phoenix, Ariz. But later the DC8 made a midcourse change and the plane headed for Calgary.

b6
b7c

SE 164-81

"Five crewmen, including a stewardess, remained on the plane.

"The passengers were taken by police van from the plane to the air terminal. Officers refused to let newsmen talk with them.

"Police said the hijacker warned the passengers not to talk about what happened on the four-engine aircraft or he would kill the crew. Officers said he had a transistor radio and was listening to local newscasts while the plane was on the ground.

"One passenger, a young woman, appeared distraught and was placed in a wheelchair after she was helped out of the plane.

"Stewardess [] told officials none of the passengers was aware of the hijack until the plane made its first landing here.

b6
b7c

"Policewoman [] brought the money to the hijacker. She said the money was provided by the First Westside National Bank of Great Falls. She refused to disclose who ordered the payment of the ransom.

[] an IRA representative touring Western Canada, told a Great Falls television newsmen that his organization abhorred hijackings and disavowed the current attempt.

b6
b7c

"The plane landed at Great Falls International Airport, and the man gave [] 15 minutes to refuel and obtain the money. [] was ordered to circle the airport until the money was brought to the facility, about 100 miles south of the Canadian border.

b6
b7c

"The plane was carrying 115 paid passengers, three airline employees and a crew of nine."

SR 71 FLIGHT

U.S. AIR FORCE SR-71 AIRCRAFT

By communication December 3, 1971, the Sacramento Division advised that Peale Air Force Base, California, had offered, free of charge to the Bureau, use of an SR-71 aircraft to photograph terrain over which the hijacked airplane had flown on its trip to Reno.

This aircraft was described as an extremely sophisticated aerial reconnaissance plane which would photograph a strip 20 miles wide with photographic resolution of detecting objects on the ground 2 feet square. The film strip would then be reviewed by trained and qualified U.S. Air Force personnel.

By communication February 17, 1972 the Sacramento Division advised that photographic over-flights using SR-71 aircraft were conducted on five separate occasions with no photographs obtained due to limited visibility from very high altitude. [REDACTED] SR-71 flights from Peale Air Force Base advised each such flight requires minimum of one week advance clearance with FAA due to sonic boom problem, specialized computer programming of aircraft, filing of flight plan and compliance with FAA requirements. Accordingly, weather on flight date cannot be accurately predicted. He stated no future flights over specific area where hijacker possibly exited could be scheduled since SR-71 aircraft committed for military missions.

b6
b7c

By communication, November 1, 1972, Seattle Division advised the Bureau and Norfolk that Unsub had in his possession, prior to the time he jumped, the following paraphernalia:

- A. Parachute Rack Pack
- B. Parachute Chest Pack
- C. Briefcase or attache case
- D. Dark overcoat
- E. A 4x12x14 paper bag
- F. A pair of dark slip-on shoes
- G. Wrap-around sunglasses with dark rims
- H. 10,000 \$20 bills

Since none of the above was found when the plane was searched at Reno, Unsub must have taken them with him, or discarded some of them prior to jumping.

The above-described attache case supposedly contained a bomb. It is believed Unsub threw this attache case from the plane prior to his jumping, because of the numerous other items he had to carry. If he did throw it prior to jumping, it would fall almost directly in the path of the aircraft. The 727 air stairs were lowered sometime after 7:42 p.m. and Unsub jumped prior to 8:15 p.m. on November 24, 1971. The plane covered a distance of approximately 87 miles during this time.

The items could possibly be lodged in thickly wooded, mountainous terrain. The search area would cover a strip of land approximately 87 miles long by one-half mile wide. It has been suggested that infrared photography might possibly indicate non-living material, such as an attache case, in a darker shade than living material, thereby enabling the case to be found using infrared high resolution photography.

Since Unsub possibly discarded the attache case prior to jumping, he could not have buried or hidden it. The case would have dropped directly in the flight path of the plane and could possibly be visible from the air. The length of time Unsub would have to throw the case or any other time is limited to 33 minutes, and therefore the area covered is relatively small when compared to the entire flight path.

By communication November 9, 1972, the Norfolk Division advised that interviews were conducted with the following individuals assigned to the [REDACTED]

[REDACTED], Langley Air Force Base, Virginia:

b6
b7c

[REDACTED]

[REDACTED]

[REDACTED]

It was the consensus of opinion among the three individuals above, each of whom has had considerable experience

with infrared imagery, that efforts to locate the attache case by this means would prob bly prove futile. The terrain, as described, would neutralize any effort, particularly if tall trees and mountains are part of its makeup. Further explained was the necessity for the presence of heat which would need to be generated by the object (attache case) in contrast to the surrounding terrain for successful infrared high resolution photography. The size of the attache case provides a poor target for any type of aerial photography, including visual photography.

All three individuals interviewed continued to express their negative feelings as to the success of either of the aerial photography procedures in this particular instance.

The Alexandria Division was requested to determine the feasibility of routing a visual aerial photography training mission over the area of interest. Alexandria advised by airtel dated February 8, 1973, that [redacted]

[redacted] was contacted and he advised that he had made inquiry into this matter and stated that in the event Seattle wished to have military assistance in this matter then Seattle should request the Director to submit a letter of request to the Special Assistant to the Secretary of Defense, Office of the Secretary of Defense, Pentagon, Washington, D.C. 20301. In this letter the full particulars of the matter should be set forth as well as whether or not the Bureau or Department of Justice is willing to observe the additional cost if any to the Air Force. [redacted] advised that he could not state positively that the request would be granted, however, advised that it was his opinion th t if this were to be a reimbursable project, that it would probably receive more favorable action. However, in any event, upon receipt of the letter a conference would be held within the appropriate military organization to ascertain the feasibility of such missions and the Bureau would be properly notified.

In view of the above information no further request was made to have a visual aerial photography training mission at this time. Consideration may be given to this type of survey if new methods or monies become available.

Re: Sub DOUGLAS GIBSON BURNS
Sub No. 199

Enclosed for Portland and San Francisco is one copy of Anchorage's letter to Seattle, May 22, 1973, and one copy of an FD 302 reflecting the interview of [redacted] at Anchorage, Alaska.

For the information of the Identification Division, BURNS has been suggested as a suspect by source [redacted], of Anchorage, Alaska. [redacted] advised he became acquainted with BURNS, while in jail in Anchorage, Alaska. During that time, BURNS stated he was going to plan and carry off a spectacular criminal feat. [redacted] advised that BURNS even elaborated that when he accomplished this feat, he would be known by the first initials of his first and middle name and that he intended to use the surname of [redacted] as a clue to [redacted] that BURNS had in fact accomplished what he had planned. BURNS was released from the Anchorage State Jail on May 17, 1971, and immediately left Alaska to return to Portland, Oregon.

Cooper Only

Successful Hijacker

(Indicate page, name of newspaper, city and state.)

LOS ANGELES (UPI) — "D.B. Cooper," who came up with the idea, is still the only successful "take the money and jump" airplane hijacker in the United States, according to Assist. Secretary of Transportation Benjamin Davis Jr.

All the others have been caught, Davis told a news conference Tuesday.

"There have been millions of dollars paid over to hijackers, but there's no hijacker who has money that

he extorted in this country ... other than D.B. Cooper," Davis said. He called the mysterious Cooper "our only failure ... we'd like to find D.B. Cooper's body and the \$200,000 somewhere south of Seattle," Davis said.

The hijacking took place in November, 1971, when a man identifying himself as "D.B. Cooper" boarded a plane and demanded \$200,000 while in flight over the Pacific Northwest, threatening the crew with a gun and a bomb.

The plane landed, the

money and parachutes were brought aboard, then the plane took off again and the man parachuted out with the ransom. Extensive searches of the Seattle area failed to turn up any trace of Cooper or the money.

Davis, who last year advocated that airline pilots carry guns and be prepared to "shoot it out" with hijackers, said the day of the hijack to Cuba may be over.

"It became apparent Castro was getting a little tired of hardened criminal types landing in Cuba," Davis said.

But he said the threat of hijacking may go on "forever" and that better methods are needed to screen passengers.

"We have to find a way to screen luggage without actually opening it up and fumbling through the dirty laundry and everything," Davis said.

He said antihijacking enforcers resorted to personal searches and electronic screening after airlines failed to utilize the "profile" screening method properly.

"We don't use the profile any more even though it was 100 per cent successful," he said.

"Half a million persons a day fly in this country," Davis said. "And, unless an American Civil Liberties Union objection to the airport searches wins backing in court, they will keep on opening up their hand luggage, purses and diaper bags for inspection."

RE: Suspect WILLIAM DEENS, Suspect Number 598.

Re Seattle airtel to Boston, 6/4/73.

On 7/6/73, [redacted]
[redacted], Springfield, Mass., was interviewed concerning his knowledge of WILLIAM DEENS. [redacted] advised he has known DEENS for many years and that he himself [redacted] at one time and had met WILLIAM DEENS [redacted]. He advised DEENS was employed by American Airlines at either the number two or number three pilot, had worked for United Airlines, Antilla Airlines in the Carribean, and Executive Airlines, which he believes to be out of Oregon. He stated DEENS resided in Montana for a time and now he believes DEENS resides in Oregon.

b6
b7C

According to [redacted], DEENS was educated at the University of Pennsylvania after having attended Andover Prep School in Massachusetts. [redacted] advised DEENS' father was a doctor and his grandfather was an executive, possibly vice president, of what he believes to be New York Railway. According to [redacted], DEENS has been worth about a half million dollars ever since he has known him and [redacted] can see no reason why DEENS would become involved in anything dishonest especially anything to include aircraft hijackings.

b6
b7C

[redacted] advised that DEENS has used his name as a reference on several occasions, he believed DEENS to be of very high character and reputation, and understands the necessity for determining the background of as many persons as possible concerning aircraft hijackings, but feels WILLIAM DEENS would be a very unlikely suspect to have committed such an act.

a parachutist named RAYMOND T. HEALD. He noted that HEALD would probably not be considered in his mid forties unless disguised and recalled him to be in his early thirties. He knew HEALD to have been familiar with the Seattle, Washington and Portland, Oregon areas and believed him capable of such a crime. He advised he had last seen HEALD about two years ago in Antioch, California, at which time HEALD indicated he was training to be an air controller. The only specific information he knew was that [redacted] had worked for awhile at [redacted] PICCIOLO, had also been employed.

b6
b7C

On the same date, records of [redacted] was employed as [redacted] at [redacted]. She had furnished her prior employments as [redacted] Portland, Oregon, during 1962 and the [redacted] Auburn, Washington, from February to October 1963. [redacted] RAYMOND T. HEALD, born 3/30/39, and former addresses were indicated as [redacted] Van Nuys, California, and [redacted] Panorama City, California.

b6
b7C

On 8/2/73, [redacted] Van Nuys, California, advised they were [redacted] and recalled [redacted] RAY HEALD. They advised about April 1971, HEALD had some type of trouble at the Air Control Center for the Federal Aviation Administration (FAA) at Palmdale, California, and was transferred to the Santa Monica, California Airport as an air controller. He had then applied for a position in Denver, Colorado, but something happened at the last minute and he did not get the job in Denver. Sometime shortly after [redacted] indicated they were moving to Seattle or Portland where it was their

b6

understanding RAY was to work at an unknown airport. They had assumed that he was working as an air controller until receipt of a Christmas card from [] in December 1972, at which time [] advised that RAY was attending college and working as a part-time disc jockey in Ashland, Oregon. He was studying to be a television sportscaster. A return address on the card displayed by [] indicated [] resided at [] Ashland, Oregon []. [] advised, after viewing the artist's conception, that the eyes, nose and mouth of the artist's conception were similar to those of RAY HEALD. [] could note no similarity. They described HEALD as a white male in his early thirties, 5'11", 180 pounds, dark brown hair, rugged, outdoor, well-tanned complexion, well spoken, polite, and handsome appearing. They recalled that almost the entire time they knew HEALD from mid 1970 to about April 1971, he was clean shaven; however, just prior to his departure he was noted to be growing a beard.

b6
b7C

On 8/3/73, [], Santa Monica Airport Terminal Tower, Santa Monica, California, advised RAYMOND T. HEALD was personally known to him. In early 1971 he was advised by his superiors that HEALD, an air controller trainee at Palmdale, California, was being transferred to Santa Monica as a result of numerous problems he was involved in at Palmdale. [] confidentially stated it was indicated to him that HEALD should be fired but due to the manner in which reams of evidence had been mishandled, his superiors did not feel a hearing at this time was feasible. He stated that among allegations was the fact that HEALD was involved in the sale of marijuana to trainees at the Air Control Center, Palmdale. Shortly after his arrival at Santa Monica, HEALD was known to be abusing the privilege of trainees wherein they were allowed to fly in the cockpits of aircraft to study traffic. On one specific

occasion, HEALD traveled in the cockpit to Phoenix, Arizona, then called from Phoenix just prior to the time he was due on duty at Santa Monica stating he was sick. It was learned that actually HEALD was judging a parachuting contest in Phoenix.

[redacted] stated HEALD had started as a trainee in Phoenix, was later transferred to Alaska, and in 1968 or 1969 was assigned as a trainee at Palmdale, California.

b6
b7C
b7D

HEALD had recently [redacted] whom [redacted] described as [redacted]. At the time HEALD left due to his resignation on 4/17/71, he indicated he was going to Oregon and just relax. Several months later (believed to be eight or nine months) in early 1972, HEALD stopped briefly at the Santa Monica Airport and indicated he was doing real well in Oregon, but no specifics were discussed. HEALD was noted at the time of this brief appearance to be wearing a light beard and [redacted] recalled that just prior to his departure for Oregon in April he had very long hair and a long beard.

b6

Re Seattle airtel to Portland, 9/18/73.

During June, 1972, in connection with investigation of instant case, it was determined that the [REDACTED] had disbanded and was no longer in existence. During 1973, it was determined that the former clubhouse, near Donald, Oregon, remains abandoned and unoccupied.

For further information, immediate contact was established between Agents of the Portland Division and officers of the [REDACTED] at the time of the initial investigation in this matter. They have been cooperative since the inception, in identifying and assisting in elimination of numerous suspects. During its existence, [REDACTED]

Re Seattle airtel to Portland, 9/19/73.

Credit and arrest records at Beaverton and Portland, Oregon, were negative concerning suspect [REDACTED] during August, 1972, as were State of Oregon Motor Vehicle and Driver's License Registration Sections. Neighborhood investigation in vicinity of residence at [REDACTED], Beaverton, Oregon, located neighbor, [REDACTED], who was acquainted with suspect [REDACTED] advised [REDACTED], white female, Canadian, about [REDACTED] years, is [REDACTED]. She told [REDACTED], who [REDACTED]. She resided temporarily at [REDACTED] address while waiting for [REDACTED] to pick her up. She spent some time [REDACTED] while here.

b6

Gentlemen:

It has been brought to my attention that your "Mr. Cooper" is indeed very much alive. It may be that the story told to me is a tale (because the person who told me this story is indeed a known teller of tales, most of which are untrue), yet, this one is so extreme, yet so exacting that I tend to believe he in fact is "D.B. His story is that [redacted] after the skyjacking and tried to figure out where someone "that crazy" would drop and/or hide the money. He said [redacted]

The money is hidden at or near [redacted]. Clackamas County, OREGON. The telephone number of [redacted], and I believe it is so well hidden somewhere there that only he could lead you to it. I suspect that it is more uphill and almost buried under thickets. I believe [redacted]

NW hijacker, \$200,000 vanishes**'Dan Cooper's' fate still
a mystery**By **LEVERETT RICHARDS**
of The Oregonian staff

Dan Cooper, where are you?

Nobody knows. The fate of this first high-jumping hijacker remains one of the most baffling mysteries on the books. After two years of intensive searching, the FBI, says it hasn't a single clue of any kind.

"We really know nothing more today than we did 11 p.m., Wednesday Nov. 24, 1971," Julius Mattson, FBI special agent in charge at Portland, said this week.

When the man called Cooper parachuted from the rear of a Boeing 727 somewhere south of Woodland, Wash., sometime after 8:10 p.m. that dark and stormy night he simply vanished. So did the \$200,000 in \$20 bills that he carried in a laundry bag.

The FBI doesn't even know if Dan Cooper ever existed. That's the name he gave when he bought a one-way ticket to Seattle at Northwest Airlines' ticket counter in Portland from Dennis Lysne about an hour before he boarded NWA's Flight 305. (The name D. B. Cooper was an error never corrected by most of the press.)

The rest is history, and mystery. At Seattle he took 10,000 \$20 bills and two sets of parachutes. He opened the rear door of the Boeing 727 soon after takeoff, which caused a red light to come on in the cockpit.

Nothing was heard from him until 8:10 p.m. when the plane was just crossing the Lewis River near Woodland. William Scott thought the hijacker was having trouble with the stairs and asked him on the interphone, "Anything we can do for you?"

Then the light came on indicating the stairs were fully

MYSTERY MAN — FBI is still looking for man called Dan Cooper on second anniversary of hijacking of airline.

was middle-aged, of middle height, with swarthy complexion, dressed in brown suit, white shirt, blue tie and raincoat.

extended. A few seconds later the hijacker came on the interphone and said. "No." That's the last the crew heard from him. Crewmen thought he was still aboard when they landed at Reno, Nev., with the stairs partly extended about 10:30 p.m. But he wasn't. Neither was the money nor one set of parachutes.

There was no transmitter on the parachute Cooper used. That device was invented later. Yet the FBI, using Northwest Airlines computers, concluded Cooper had jumped immediately after answering the interphone. They figured the heavy wind from a winter storm would have blown him to the vicinity of Lake Merwin.

Late in March, 1973, 300

soldiers from Ft. Lewis combed the area on foot and with helicopters for 18 days, without finding a trace of Cooper. "although we did find a body and cleared up a local murder," Mattson said.

Air Force paramedics said Cooper had little chance of survival. He was clad only in a business suit and street shoes, which probably would have been snapped off his feet by the opening shock of the parachute at 200 miles an hour.

He apparently didn't know his route of flight or elevation and could have had no idea where he was.

Cooper apparently did not wear gloves. No fingerprints were found on the airplane

and he carefully reclaimed his hijack note from the flight crew.

In fact, the FBI doesn't know to this day if there ever was a Dan Cooper. Hundreds of people reported they knew the man after seeing the posters put out by the FBI.

"We investigate every report and so far have proved that the various men reported to be Cooper could not have been the man who hijacked Flight 305," Mattson said.

"We have no physical evidence to go on except the \$20 bills. We have circulated the numbers on all 10,000 of them far and wide, but not one has ever turned up," Mattson said.

But the Cooper case is not closed, "not by any means,"

are still being investigated, Mattson said.

Are you satisfied he is not hanging from a tree somewhere in the Ariel area?

"No," said Mattson, "the terrain is just too rugged in a couple of places to be thoroughly searched on the ground, although we have gone over it by helicopter.

"And there is still the possibility he may have landed in Lake Merwin, which is too deep to drag and too deep for skin divers to search. Besides its 30 miles long and nearly a mile wide."

FBI open-minded

What is the FBI's guess as to his fate?

"We are keeping an open mind, for lack of evidence either way -- that he is alive or dead," Mattson concluded.

The whole route of Flight 305 from Woodland south to Red Bluff and direct to Reno, Nev., has been "substantially searched" without finding a clue of any kind, Mattson said.

"But we are still working as hard on the case now as we were two years ago."

Northwest Airlines, which offered a \$25,000 reward for information leading to the solution of the mystery last fall, has cancelled the reward, a spokesman in Minneapolis said.

Cooper's coup -- although it may have cost his life -- was followed by a rash of similar hijackings, until the rear door of the 727s were locked in flight. There hasn't been a domestic hijacking of any kind, according to the Federal Aviation Administration, in the past year.

The Cooper hijacking is the only one unsolved today, Benjamin Davis Jr., assistant secretary of Transportation, says.

Enclosed herewith for Seattle is a parcel containing nylon cord.

For information of Seattle, "The Oregon Journal," Portland daily newspaper, has been publishing a series of articles concerning captioned matter. These articles have generated considerable public interest. As a result of this publicity, [redacted]

[redacted] Clackamas, Oregon, telephone [redacted] furnished the following information:

b6
b7C

During approximately October, 1973, [redacted] went on a hike on Mt. Hood, approximately forty miles east of Portland, Oregon. Walking on an established trail, he spied a few pieces of what appeared to be nylon material in a small opening a short distance off the trail. He examined the material, which appeared to possibly be from a parachute. He cut off several pieces of the nylon cord and brought them home with him.

It is realized that this location is too far from the scene of the hijacker's jump to be logically related to this case. However, in view of the intense current public interest and the fact that [redacted] furnished his information first to "The Oregon Journal" which transmitted it to the Portland Office, it is felt further investigation should be conducted.

b6
b7C

Recalling that the parachute rigger in this matter originally stated he would be able to identify any part of the missing parachutes, the enclosed material should be shown to him and definitely eliminated as being from the parachutes furnished the hijacker. In view of interest of the newspaper in resolution of any leads generated by them, it is requested results be furnished Portland.

[redacted] made the following observations concerning NORJAK. He advised that [redacted] again would have had [redacted] to pull that hijacking off. He feels that [redacted] is highly familiar with the area where COOPER might have jumped which could have been in the vicinity of Stateline, Nevada. He advised that [redacted] could have dressed and acted in a conservative manner which would have been consistent with [redacted] earlier [redacted]. He advised that [redacted] and claims he has certain [redacted] (not further detailed) which may be similar to COOPER. [redacted] also feels that there is a high similarity between [redacted] behavior and COOPER's in that COOPER showed the flight attendant an alleged explosive device which is the [redacted].

[redacted] also pointed out that [redacted] in his demand note and that this same special vehicle request was also present in NORJAK (parachute - special vehicle) and [redacted] (this case had a description of a special vehicle).

[redacted] advised that during his [redacted] [redacted] he tried to [redacted] which might tie him into NORJAK. TWABOM [redacted] became very [redacted] over this line of questioning and [redacted] advised that he was informed by jail personnel that approximately 10 minutes after he finished [redacted] was quite agitated and requested to telephonically contact [redacted] by jail personnel as saying [redacted] [redacted] feels this is unusual conduct for [redacted] unless he was perhaps involved in NORJAK.

OBSERVATION

[redacted] was friendly and courteous to the interviewing Agents. [redacted] and his relationship to NORJAK, TWABOM [redacted] was not that well organized and lacked professional specificity. The interviewing Agents felt he was attempting to prove a "pet" theory and only used convenient facts to attempt to establish his theory. [redacted] made available no transcripts or original tapes of his interview with [redacted] and was relating to facts off the [redacted]. Throughout the interview, [redacted] made comments that he would like to continually be cooperative to the Bureau and that the Bureau had a definite need for a man of his background in cases of this type. [redacted] said he would make his services available as a paid consultant. He advised that to some extent, he could make information available that he has compiled on [redacted] and [redacted] outside of medical or legal channels. [redacted] stated that he feels that he would not be violating [redacted] in making this information available as he could make strip tapes from his original tapes without identifying [redacted]. These tapes could then be [redacted]

[redacted] TWABOM, NORJAK [redacted] he [redacted] TWABOM case and any other transcriptions of pertinent conversation that might have taken place in those cases between the unsubs and the airlines or law enforcement personnel.

RECOMMENDATION

Dallas does not recommend that [redacted] be utilized as a paid consultant in the capacity as outlined above and it leaves to the Bureau the determination as to whether or not any information should be disseminated to [redacted] concerning past aircraft hijackers and related crimes. It should be noted that [redacted] appears to be presently cooperative with the Bureau and it might not be in the best interest of the Bureau to alienate or ignore him when perhaps a limited dissemination of information desired by him can be beneficial to the Bureau in view of his continuing research in this [redacted].

NORJAK
OO: Seattle

Enclosed herewith to the Bureau and Seattle are news clippings from the "Oregon Journal," Portland, Oregon, daily newspaper, for the weekdays of 11/22-12/14/73, publicizing the NORJAK case. In addition to the clippings, there are forwarded to Bureau and Seattle the complete front pages of the 11/22, 11/23, 11/26 and 11/27/73, editions of this paper. These pages are being forwarded in their entirety to illustrate the prominent front page coverage the "Oregon Journal" gave this story.

[redacted] and he spent considerable time and effort preparing for publication. I believe this coverage again demonstrates his constructive, enthusiastic cooperation with this office.

Numerous leads have been received from all over the country as a result of this publicity. Radio and television publicity in various parts of the country has been a spin-off of the [redacted].

It is recommended the Bureau consider sending [redacted] an appreciative letter over the Director's signature. Letter should be addressed as follows: [redacted] "Oregon Journal," 1320 SW Broadway, Portland, Oregon, 97201. There is nothing in Portland files which would preclude sending this letter.
